

Australian statement of hazardous nature : Classified as hazardous according to criteria of Safe Work Australia

## Section 1 - Identification

**Product Name** Hydrogen Peroxide 31%, Electronic Grade (ULSI)

**CAS No** 7722-84-1

**Synonyms** Hydrogen Dioxide; Peroxide; Carbamide Peroxide

**Product Code** **S60125**

**Address** ThermoFisher Scientific Australia Pty Ltd  
5 Caribbean Drive, Scoresby  
VICTORIA 3179, Australia

**Emergency Tel.** **CHEMTREC®**  
**03 9757 4559 or +613 9757 4559**

**Telephone / Fax Numbers** Tel: 1300 735 292  
Fax: 1800 067 639

**E-mail address** ANZinfo@thermofisher.com

**Recommended Use** Laboratory chemicals.

**Uses advised against** This product does not contain any substance(s) on the Illicit Drug Precursors/Reagents list. This product does not contain any substance(s) subject to Prohibition, Authorization or Restriction. This product contains one or more substance(s) listed on the voluntary National Code of Practice for Chemicals of Security Concern.

## Section 2 - Hazard(s) Identification

### Classification under Safe Work Australia

Classified as hazardous according to criteria of Safe Work Australia

#### Physical hazards

Oxidizing liquids Category 2

#### Health hazards

Acute Oral Toxicity Category 4  
Acute Inhalation Toxicity - Dusts and Mists Category 4  
Skin Corrosion/Irritation Category 1 A  
Serious Eye Damage/Eye Irritation Category 1

#### Environmental hazards

No hazards identified

#### Label Elements

Flame Over Circle

Exclamation Mark

Corrosion

**Signal Word**

**Danger**

**Hazard Statements**

H272 - May intensify fire; oxidizer  
H335 - May cause respiratory irritation  
H314 - Causes severe skin burns and eye damage  
H302 + H332 - Harmful if swallowed or if inhaled

**Precautionary Statements**

P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking  
P220 - Keep away from clothing and other combustible materials  
P221 - Take any precaution to avoid mixing with combustibles  
P261 - Avoid breathing dust/fume/gas/mist/vapors/spray  
P264 - Wash face, hands and any exposed skin thoroughly after handling  
P270 - Do not eat, drink or smoke when using this product  
P271 - Use only outdoors or in a well-ventilated area  
P280 - Wear protective gloves/protective clothing/eye protection/face protection  
P370 + P378 - In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish  
P304 + P340 - IF INHALED: Remove person to fresh air and keep comfortable for breathing  
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing  
P310 - Immediately call a POISON CENTER or doctor  
P330 - Rinse mouth  
P403 - Store in a well-ventilated place  
P501 - Dispose of contents/ container to an approved waste disposal plant

**Other information**

## Section 3 - Composition and Information on Ingredients

| Component         | CAS No    | Weight % |
|-------------------|-----------|----------|
| Water             | 7732-18-5 | 65 - 80  |
| Hydrogen peroxide | 7722-84-1 | 20 - 35  |

## Section 4 - First Aid Measures

|                     |   |
|---------------------|---|
| <b>Inhalation</b>   | Remove to fresh air. If not breathing, give artificial respiration. Get medical attention if symptoms occur.      |
| <b>Ingestion</b>    | Clean mouth with water and drink afterwards plenty of water.  |
| <b>Skin Contact</b> | Wash off immediately with plenty of water for at least 15 minutes. If skin irritation persists, call a physician. |
| <b>Eye Contact</b>  | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Get medical attention.   |

|  |  |
|--|--|
| <b>General Advice</b>                      | If symptoms persist, call a physician.   |
| <b>Self-Protection of the First Aider</b>  | Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination. |
| <b>First Aid Facilities</b>                | Eyewash, safety shower and washroom.   |
| <b>Most important symptoms and effects</b> | None reasonably foreseeable. Causes eye burns.   |
| <b>Notes to Physician</b>                  | Treat symptomatically.   |

## Section 5 - Fire Fighting Measures

### Suitable Extinguishing Media

Use water spray or fog; do not use straight streams.

### Extinguishing media which must not be used for safety reasons

Dry chemical. Carbon dioxide (CO<sub>2</sub>).

### Hazardous Decomposition Products

Hydrogen, Oxygen.

### Decomposition Temperature

> 125°C

### Specific Hazards Arising from the Chemical

Corrosive material. Containers may explode when heated. Oxidizer: Contact with combustible/organic material may cause fire. In the event of fire and/or explosion do not breathe fumes. Thermal decomposition can lead to release of irritating gases and vapors. May ignite combustibles (wood paper, oil, clothing, etc.).

### Special protective equipment and precautions for fire fighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

## Section 6 - Accidental Release Measures

### Emergency procedures

Ensure adequate ventilation. Use personal protective equipment as required.  
Do not use steel or aluminum tools or equipment

### Environmental Precautions

Should not be released into the environment. See Section 12 for additional Ecological Information.

### Methods for Containment and Clean Up

#### Clean-up methods - small spillage

Soak up with inert absorbent material. Keep in suitable, closed containers for disposal.

#### Clean-up methods - large spillage

Typically only supplied in small quantities as packaged goods.  
If extremely toxic or used in large quantities ensure a spillage action plan is in place. Evacuate area. Control the source and/or contain the spill if safe and able to do so. Use temporary diking, sand bags, dry sand, earth or proprietary booms/absorbent pads if available. Obtain advice on containment, neutralisation and clean-up from local emergency responders.

### Reference to Other Sections

Refer to protective measures listed in Sections 8 and 13.

## Section 7 - Handling and Storage

### Precautions for Safe Handling

Wear personal protective equipment/face protection. Do not get in eyes, on skin, or on clothing. Avoid ingestion and inhalation. Ensure adequate ventilation.

### Conditions for Safe Storage, Including any Incompatibilities

Keep containers tightly closed in a dry, cool and well-ventilated place. To maintain product quality. Keep refrigerated. Protect from direct sunlight. Do not store in metal containers. Containers should be vented periodically in order to overcome pressure buildup. Do not store near combustible materials.

AS/NZS 2243.10:2004, Safety in laboratories - Storage of chemicals

## Section 8 - Exposure Controls and Personal Protection

### Exposure limits

**AUS** - Exposure Standards for Atmospheric Contaminants in the Occupational Environment - Guidance Note on the Interpretation of Exposure Standards for Atmospheric Contaminants in the Occupational Environment [NOHSC:3008(1995)]  
Adopted National Exposure Standards for Atmospheric Contaminants in the Occupational Environment [NOHSC:1003(1995)] updated in August, 2005. Safe Work Australia **ACGIH** - Threshold Limit Values - Ceiling (TLV-C) guidelines by the American Conference of Governmental Industrial Hygienists (ACGIH) for controlling worker exposure to airborne chemical concentrations in the workplace. **UK** - EH40/2005 Work Exposure Limits, Fourth edition. Published 2020. **DE** - MAK and BAT values of Hazardous Chemical Compounds in the Work Area. Published by German Research Foundation on July 1, 2011

| Component         | Australia                                | New Zealand WEL                          | ACGIH TLV  | The United Kingdom   | Germany  |

MAK<br>Höhepunkt: 0.5 ppm<br>Höhepunkt: 0.71 mg/m <sup>3</sup> |

### Biological limit values

This product, as supplied, does not contain any hazardous materials with biological limits established by the region specific regulatory bodies

### Exposure Controls

#### Engineering Measures

Ensure that eyewash stations and safety showers are close to the workstation location. Ensure adequate ventilation, especially in confined areas.

Wherever possible, engineering control measures such as the isolation or enclosure of the process, the introduction of process or equipment changes to minimise release or contact, and the use of properly designed ventilation systems, should be adopted to control hazardous materials at source

### Personal protective equipment

#### Eye Protection

Goggles (Australian/New Zealand Standard AS/NZS 1337 - Eye protectors for Industrial applications)

#### Hand Protection

Protective gloves

| Glove material | Breakthrough time | Glove thickness | AUS/NZ Standard | Glove comments        |
|----------------|-------------------|-----------------|-----------------|-----------------------|
| Butyl rubber   | > 480 minutes     | 0.35 mm         | AS/NZS 2161     | (minimum requirement) |
| Neoprene       | > 480 minutes     | 0.45 mm         |                 |                       |
| Natural rubber | > 480 minutes     | 0.5 mm          |                 |                       |
| Nitrile rubber | > 480 minutes     | 0.1 - 0.2 mm    |                 |                       |

|           |               |        |
|-----------|---------------|--------|
| Viton (R) | > 480 minutes | 0.3 mm |
|-----------|---------------|--------|

Inspect gloves before use.

Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves.  
(Refer to manufacturer/supplier for information)

Ensure gloves are suitable for the task: Chemical compatibility, Dexterity, Operational conditions, User susceptibility, e.g. sensitisation effects, also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion.

Remove gloves with care avoiding skin contamination.

|                                 |   |
|---------------------------------|---|
| <b>Skin and body protection</b> | Long sleeved clothing   |
| <b>Respiratory Protection</b>   | Use an AS/NZS 1716 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced. To protect the wearer, respiratory protective equipment must be the correct fit and be used and maintained in line with AS/NZS 1715 on the use and maintenance of respiratory protective devices |
| <b>Recommended Filter type:</b> | Particulates filter conforming to EN 143 Inorganic gases and vapours filter Type B Grey conforming to EN14387 (or AUS/NZ equivalent)  |
| <b>Recommended half mask:-</b>  | Particle filtering: EN149:2001 (or AUS/NZ equivalent)<br>When RPE is used a face piece Fit Test should be conducted   |

**Hygiene Measures** Handle in accordance with good industrial hygiene and safety practice.

**Environmental exposure controls** Prevent product from entering drains. Do not allow material to contaminate ground water system. Local authorities should be advised if significant spillages cannot be contained.

## Section 9 - Physical and Chemical Properties

### Information on basic physical and chemical properties

|  |                           |  |
|--|---------------------------|--|
| <b>Appearance</b>                              | Colorless                 |  |
| <b>Physical State</b>                          | Liquid                    |  |
| <b>Odor</b>                                    | Slight                    |  |
| <b>Odor Threshold</b>                          | No data available         |  |
| <b>pH</b>                                      | 3.3                       |  |
| <b>Melting Point/Range</b>                     | -33 °C / -27.4 °F         |  |
| <b>Softening Point</b>                         | No data available         |  |
| <b>Boiling Point/Range</b>                     | 108 °C / 226.4 °F         | @ 760 mmHg                               |
| <b>Flash Point</b>                             | No information available  | <b>Method -</b> No information available |
| <b>Evaporation Rate</b>                        | 1.0 (Butyl acetate = 1.0) |  |
| <b>Flammability (solid,gas)</b>                | Not applicable            | Liquid                                   |
| <b>Explosion Limits</b>                        | No data available         |  |
| <b>Vapor Pressure</b>                          | No data available         |  |
| <b>Vapor Density</b>                           | 1.10                      | (Air = 1.0)                              |
| <b>Specific Gravity / Density</b>              | 1.110                     |  |
| <b>Bulk Density</b>                            | Not applicable            | Liquid                                   |
| <b>Water Solubility</b>                        | Soluble                   |  |
| <b>Solubility in other solvents</b>            | No information available  |  |
| <b>Partition Coefficient (n-octanol/water)</b> |                           |  |
| <b>Component</b>                               | <b>log Pow</b>            |  |
| Hydrogen peroxide                              | -1.1                      |  |
| <b>Autoignition Temperature</b>                | No data available         |  |
| <b>Decomposition Temperature</b>               | > 125°C                   |  |
| <b>Viscosity</b>                               | No data available         |  |
| <b>Explosive Properties</b>                    | Not explosive             |  |
| <b>Oxidizing Properties</b>                    | Oxidizer                  |  |

### Other information

## Section 10 - Stability and Reactivity

|                               |  |
|-------------------------------|--|
| <b>Reactivity</b>             | Yes  |
| <b>Stability</b>              | Sensitivity to light. Oxidizer: Contact with combustible/organic material may cause fire.  |
| <b>Conditions to Avoid</b>    | Incompatible products, Excess heat, Exposure to light, Combustible material.   |
| <b>Incompatible Materials</b> | Strong oxidizing agents, Metals, Reducing Agent, Alcohols, Ammonia, copper, Copper alloys, lead oxides, Cyanides, Sulfides, Lead, Acetone, Aluminium, , Strong reducing agents, Combustible material. Zinc |

**Hazardous Decomposition Products** Hydrogen. Oxygen.

**Hazardous Polymerization** Hazardous polymerization does not occur.

## Section 11 - Toxicological Information

### Information on Toxicological Effects

#### Product Information

|                            |                   |
|----------------------------|-------------------|
| <b>(a) acute toxicity;</b> |                   |
| <b>Oral</b>                | Category 4        |
| <b>Dermal</b>              | No data available |
| <b>Inhalation</b>          | Category 4        |

#### Toxicology data for the components

| Component         | LD50 Oral   | LD50 Dermal            | LC50 Inhalation                           |
|-------------------|---|------------------------|---|
| Water             | -   | -                      | -   |
| Hydrogen peroxide | 376 mg/kg ( Rat ) (90%)<br>910 mg/kg ( Rat ) (20-60%)<br>1518 mg/kg ( Rat ) (8-20% sol) | >2000 mg/kg ( Rabbit ) | LC50 = 2000 mg/m <sup>3</sup> ( Rat ) 4 h |

**(b) skin corrosion/irritation;** No data available

**(c) serious eye damage/irritation;** Category 1

Bridging principle "Dilution"

|   |                   |
|---|-------------------|
| <b>(d) respiratory or skin sensitization;</b> |                   |
| <b>Respiratory</b>                            | No data available |
| <b>Skin</b>                                   | No data available |

**(e) germ cell mutagenicity;** No data available

**(f) carcinogenicity;** No data available  
There are no known carcinogenic chemicals in this product

**(g) reproductive toxicity;** No data available

**(h) STOT-single exposure;** No data available

- (i) STOT-repeated exposure; No data available
- Target Organs No information available.
- (j) aspiration hazard; Based on available data, the classification criteria are not met
- Symptoms / effects, both acute and delayed No information available

## Section 12 - Ecological Information

|                                       |  |                                     |                   |                                      |                 |
|---------------------------------------|--|-------------------------------------|-------------------|--------------------------------------|-----------------|
| Ecotoxicity effects                   | Contains a substance which is: Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.   |                                     |                   |                                      |                 |
|                                       | <b>Component</b>   | <b>Freshwater Fish</b>              | <b>Water Flea</b> | <b>Freshwater Algae</b>              | <b>Microtox</b> |
|                                       | Hydrogen peroxide  | LC50: 16.4 mg/L/96h<br>(P.promelas) | EC50 7.7 mg/L/24h | EC50 2.5 mg/L/72h                    |                 |
| Persistence and Degradability         | Readily biodegradable  |                                     |                   |                                      |                 |
| Persistence                           | Persistence is unlikely, Decomposes, Soluble in water, based on information available.   |                                     |                   |                                      |                 |
| Degradability                         | Not relevant for inorganic substances.   |                                     |                   |                                      |                 |
| Degradation in sewage treatment plant | No inhibition of bacteria is expected if properly introduced into a biological treatment facility. Contains substances known to be hazardous to the environment or not degradable in waste water treatment plants. |                                     |                   |                                      |                 |
| Bioaccumulative Potential             | Bioaccumulation is unlikely  |                                     |                   |                                      |                 |
|                                       | <b>Component</b>   | <b>log Pow</b>                      |                   | <b>Bioconcentration factor (BCF)</b> |                 |
|                                       | Hydrogen peroxide  | -1.1                                |                   | No data available                    |                 |
| Mobility                              | The product is water soluble, and may spread in water systems. Will likely be mobile in the environment due to its water solubility Highly mobile in soils   |                                     |                   |                                      |                 |
| Endocrine Disruptor Information       | This product does not contain any known or suspected endocrine disruptors  |                                     |                   |                                      |                 |
| Persistent Organic Pollutant          | This product does not contain any known or suspected substance   |                                     |                   |                                      |                 |
| Ozone Depletion Potential             | This product does not contain any known or suspected substance   |                                     |                   |                                      |                 |

## Section 13 - Disposal Considerations

|                                     |  |
|-------------------------------------|--|
| Waste from Residues/Unused Products | Do not allow into drains or watercourses or dispose of where ground or surface waters may be affected. Wastes, including emptied containers, are controlled wastes and should be disposed of in accordance with all federal, E.P.A., state and local regulations. Assure conformity with all applicable regulations. |
| Contaminated Packaging              | Dispose of this container to hazardous or special waste collection point.  |
| Other Information                   | Chemical wastes should be disposed through a licensed commercial waste collection service. Do not flush to sewer. Waste codes should be assigned by the user based on the application for which the product was used. Do not empty into drains. Do not let this chemical enter the environment.                      |

## Section 14 - Transport Information

### IMDG/IMO

|                         |                                     |
|-------------------------|-------------------------------------|
| UN-No                   | UN2014                              |
| Proper Shipping Name    | HYDROGEN PEROXIDE, AQUEOUS SOLUTION |
| Hazard Class            | 5.1                                 |
| Subsidiary Hazard Class | 8                                   |
| Packing Group           | II                                  |

### ADG

UN-No UN2014  
Proper Shipping Name HYDROGEN PEROXIDE, AQUEOUS SOLUTION  
Hazard Class 5.1  
Subsidiary Hazard Class 8  
Packing Group II

| Component             | Hazchem Code |
|-----------------------|--------------|
| Hydrogen peroxide     | 2P           |
| 7722-84-1 ( 20 - 35 ) | 2R           |

#### IATA

UN-No UN2014  
Proper Shipping Name HYDROGEN PEROXIDE, AQUEOUS SOLUTION  
Hazard Class 5.1  
Subsidiary Hazard Class 8  
Packing Group II

Environmental hazards No hazards identified  
Special Precautions No special precautions required  
Additional information None known

## **Section 15 - Regulatory Information**

#### Safety, health and environmental regulations/legislation specific for the substance or mixture

##### National Regulations Australia

See section 8 for national exposure control parameters.

#### **Standard for the Uniform Scheduling of Medicines and Poisons**

Classified as a scheduled poison according to the Standard for Uniform Scheduling of Medicines and Poisons.

| Component                     | Standard for the Uniform Scheduling of Medicines and Poisons  |
|-------------------------------|---|
| Hydrogen peroxide - 7722-84-1 | Schedule 5 listed - except its salts and derivatives;in other preparations except in preparations containing <=3% or 10 volume of Hydrogen peroxide<br>Schedule 5 listed - except its salts and derivatives;in hair dye preparations except in hair dyes containing <=6% of Hydrogen peroxide<br>Schedule 6 listed - except its salts and derivatives;except: when included in Schedule 5, in hair dye preparations containing <=6% (20 volume) of Hydrogen peroxide, or in other preparations containing <=3% (10 volume) of Hydrogen peroxide<br>Schedule 10 listed |

#### **Australian Industrial Chemicals Introduction Scheme (AICIS)**

| Component                     | Australian Industrial Chemicals Introduction Scheme (AICIS) | Additional information |
|-------------------------------|---|------------------------|
| Water - 7732-18-5             | Present   | -                      |
| Hydrogen peroxide - 7722-84-1 | Present   | -                      |

#### **Australian - Illicit Drug Precursors/Reagents Substance List**

This product does not contain any substance(s) on the Illicit Drug Precursors/Reagents list.

#### **Chemicals of Security Concern**

This product contains one or more substance(s) listed on the voluntary National Code of Practice for Chemicals of Security Concern

| Component                     | Australian - Illicit Drug<br>Precursors/Reagents Substance List | Chemicals of Security Concern   |
|-------------------------------|---|---|
| Hydrogen peroxide - 7722-84-1 |   | Listed in Appendix A<br>Precursors to homemade explosives -<br>concentration >=15% in a form other than a<br>water-based solution<br>Precursors to homemade explosives -<br>concentration >=0% in a water-based<br>solution |

#### Legend

**Chemicals of Security Concern** - for further information see <http://www.chemicalsecurity.gov.au/securityconcerns>

**National pollutant inventory** Not applicable

#### Prohibition or notification/licensing requirements

Shown below are details of specific prohibition/notifications or licencing requirements when they apply.

This product does not contain any substance(s) subject to Prohibition, Authorization or Restriction.

#### International Inventories

| Component         | AICS | NZIoC | EINECS    | ELINCS | TSCA | DSL | NDSL | PICCS | ENCS | ISHL | IECSC | KECL     |
|-------------------|------|-------|-----------|--------|------|-----|------|-------|------|------|-------|----------|

### Key literature references and sources for data

<https://echa.europa.eu/information-on-chemicals>  
Suppliers safety data sheet, Chemadviser - LOLI, Merck index, RTECS

### Classification and procedure used to derive the classification for mixtures according to Regulation (EC) 1272/2008 [CLP]:

|                              |                       |
|------------------------------|-----------------------|
| <b>Physical hazards</b>      | On basis of test data |
| <b>Health Hazards</b>        | Calculation method    |
| <b>Environmental hazards</b> | Calculation method    |

### Training Advice

Chemical hazard awareness training, incorporating labelling, Safety Data Sheets (SDS), Personal Protective Equipment (PPE) and hygiene.  
Use of personal protective equipment, covering appropriate selection, compatibility, breakthrough thresholds, care, maintenance, fit and standards.  
First aid for chemical exposure, including the use of eye wash and safety showers.

|                         |                  |
|-------------------------|------------------|
| <b>Revision Date</b>    | 20-Nov-2022      |
| <b>Revision Summary</b> | Initial Release. |

**This Safety Data Sheet (SDS) is prepared in accordance to and complies with the requirements of Safe Work Australia - Work Health and Safety Regulations (WHS Regulations).**
