

## SAFETY DATA SHEET

Revision Date 13-March-2024

Revision Number 1

### 1. Identification

**Product Name** Europium(III) chloride hexahydrate

**Cat No. :** S11297

**CAS-No** 13759-92-7  
**Synonyms** Europic Chloride

**Recommended Use** Laboratory chemicals.  
**Uses advised against** Food, drug, pesticide or biocidal product use.

#### Details of the supplier of the safety data sheet

##### Company

##### **Importer/Distributor**

Fisher Scientific  
112 Colonnade Road,  
Ottawa, ON K2E 7L6,  
Canada  
Tel: 1-800-234-7437

##### **Emergency Telephone Number**

For information **US** call: 001-800-227-6701 / **Europe** call: +32 14 57 52 11

Emergency Number **US**:001-201-796-7100 / **Europe**: +32 14 57 52 99

**CHEMTREC** Tel. No. **US**:001-800-424-9300 / **Europe**:001-703-527-3887

### 2. Hazard(s) identification

#### Classification

**WHMIS 2015 Classification** Not classified under the Hazardous Products Regulations (SOR/2015-17)

Based on available data, the classification criteria are not met

#### Label Elements

None required

### 3. Composition/Information on Ingredients

| Component                                           | CAS-No     | Weight % |
|-----------------------------------------------------|------------|----------|
| Europium chloride (EuCl <sub>3</sub> ), hexahydrate | 13759-92-7 | <=100    |
| Europium chloride (EuCl <sub>3</sub> )              | 10025-76-0 | -        |

#### 4. First-aid measures

|                                                               |                                                                                                                         |
|---------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------|
| <b>Eye Contact</b>                                            | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Get medical attention.         |
| <b>Skin Contact</b>                                           | Wash off immediately with plenty of water for at least 15 minutes. Get medical attention immediately if symptoms occur. |
| <b>Inhalation</b>                                             | Remove to fresh air. Get medical attention immediately if symptoms occur.                                               |
| <b>Ingestion</b>                                              | Clean mouth with water and drink afterwards plenty of water. Get medical attention if symptoms occur.                   |
| <b>Most important symptoms/effects<br/>Notes to Physician</b> | None reasonably foreseeable.<br>Treat symptomatically                                                                   |

#### 5. Fire-fighting measures

|                                         |                                                                                                         |
|-----------------------------------------|---------------------------------------------------------------------------------------------------------|
| <b>Suitable Extinguishing Media</b>     | Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. |
| <b>Unsuitable Extinguishing Media</b>   | No information available                                                                                |
| <b>Flash Point</b>                      | No information available                                                                                |
| <b>Method -</b>                         | No information available                                                                                |
| <b>Autoignition Temperature</b>         | No information available                                                                                |
| <b>Explosion Limits</b>                 |                                                                                                         |
| <b>Upper</b>                            | No data available                                                                                       |
| <b>Lower</b>                            | No data available                                                                                       |
| <b>Sensitivity to Mechanical Impact</b> | No information available                                                                                |
| <b>Sensitivity to Static Discharge</b>  | No information available                                                                                |

**Specific Hazards Arising from the Chemical**  
Non-combustible.

#### **Hazardous Combustion Products**

Chlorine. Hydrogen chloride gas.

#### **Protective Equipment and Precautions for Firefighters**

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

#### **NFPA**

**Health**  
0

**Flammability**  
0

**Instability**  
1

**Physical hazards**  
N/A

#### 6. Accidental release measures

|                                             |                                                                                                   |
|---------------------------------------------|---------------------------------------------------------------------------------------------------|
| <b>Personal Precautions</b>                 | Ensure adequate ventilation. Use personal protective equipment as required. Avoid dust formation. |
| <b>Environmental Precautions</b>            | Should not be released into the environment.                                                      |
| <b>Methods for Containment and Clean Up</b> | Sweep up and shovel into suitable containers for disposal. Avoid dust formation.                  |

#### 7. Handling and storage

|                 |                                                                                        |
|-----------------|----------------------------------------------------------------------------------------|
| <b>Handling</b> | Wear personal protective equipment/face protection. Ensure adequate ventilation. Avoid |
|-----------------|----------------------------------------------------------------------------------------|

contact with skin, eyes or clothing. Avoid ingestion and inhalation. Avoid dust formation.

**Storage.**

Keep in a dry, cool and well-ventilated place. Keep container tightly closed. Protect from moisture. To maintain product quality: Store under an inert atmosphere. Incompatible Materials. Strong bases. Strong reducing agents. Finely powdered metals.

## 8. Exposure controls / personal protection

**Exposure Guidelines**

This product does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies.

**Engineering Measures**

None under normal use conditions.

**Personal protective equipment****Eye Protection**

Wear appropriate protective eyeglasses or chemical safety goggles as described by OSHA's eye and face protection regulations in 29 CFR 1910.133 or European Standard EN166.

**Hand Protection**

Protective gloves

| Glove material | Breakthrough time | Glove thickness | Glove comments         |
|----------------|-------------------|-----------------|------------------------|
| Natural rubber | See manufacturers | -               | Splash protection only |
| Nitrile rubber | recommendations   |                 |                        |
| Neoprene       |                   |                 |                        |
| PVC            |                   |                 |                        |

Inspect gloves before use. observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. (Refer to manufacturer/supplier for information) gloves are suitable for the task: Chemical compatability, Dexterity, Operational conditions, User susceptibility, e.g. sensitisation effects, also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion. gloves with care avoiding skin contamination.

**Respiratory Protection**

No protective equipment is needed under normal use conditions.

**Recommended Filter type:** Particle filter

**Environmental exposure controls**

No information available.

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice. Keep away from food, drink and animal feeding stuffs. Do not eat, drink or smoke when using this product. Remove and wash contaminated clothing and gloves, including the inside, before re-use. Wash hands before breaks and after work.

## 9. Physical and chemical properties

|                          |                          |
|--------------------------|--------------------------|
| Physical State           | Solid                    |
| Appearance               | White                    |
| Odor                     | Odorless                 |
| Odor Threshold           | No information available |
| pH                       | No information available |
| Melting Point/Range      | 850 °C / 1562 °F         |
| Boiling Point/Range      | No information available |
| Flash Point              | No information available |
| Evaporation Rate         | Not applicable           |
| Flammability (solid,gas) | No information available |

**Flammability or explosive limits**

|                                        |                                         |
|----------------------------------------|-----------------------------------------|
| Upper                                  | No data available                       |
| Lower                                  | No data available                       |
| Vapor Pressure                         | No information available                |
| Vapor Density                          | Not applicable                          |
| Specific Gravity                       | 4.890                                   |
| Solubility                             | Soluble in water                        |
| Partition coefficient; n-octanol/water | No data available                       |
| Autoignition Temperature               | No information available                |
| Decomposition Temperature              | No information available                |
| Viscosity                              | Not applicable                          |
| Molecular Formula                      | Cl <sub>3</sub> Eu . 6 H <sub>2</sub> O |
| Molecular Weight                       | 366.4                                   |

## 10. Stability and reactivity

|                                         |                                                              |
|-----------------------------------------|--------------------------------------------------------------|
| <b>Reactive Hazard</b>                  | None known, based on information available                   |
| <b>Stability</b>                        | Hygroscopic.                                                 |
| <b>Conditions to Avoid</b>              | Incompatible products. Exposure to moist air or water.       |
| <b>Incompatible Materials</b>           | Strong bases, Strong reducing agents, Finely powdered metals |
| <b>Hazardous Decomposition Products</b> | Chlorine, Hydrogen chloride gas                              |
| <b>Hazardous Polymerization</b>         | Hazardous polymerization does not occur.                     |
| <b>Hazardous Reactions</b>              | None under normal processing.                                |

## 11. Toxicological information

**Acute Toxicity**

|                            |                                                                               |
|----------------------------|-------------------------------------------------------------------------------|
| <b>Product Information</b> | No acute toxicity information is available for this product                   |
| <b>Oral LD50</b>           | Based on ATE data, the classification criteria are not met. ATE > 2000 mg/kg. |
| <b>Dermal LD50</b>         | Based on ATE data, the classification criteria are not met. ATE > 2000 mg/kg. |
| <b>Mist LC50</b>           | Based on ATE data, the classification criteria are not met. ATE > 5 mg/l.     |

|                                             |                          |
|---------------------------------------------|--------------------------|
| <b>Component Information</b>                |                          |
| <b>Toxicologically Synergistic Products</b> | No information available |

**Delayed and immediate effects as well as chronic effects from short and long-term exposure**

|                        |                                                                                          |
|------------------------|------------------------------------------------------------------------------------------|
| <b>Irritation</b>      | No information available                                                                 |
| <b>Sensitization</b>   | No information available                                                                 |
| <b>Carcinogenicity</b> | The table below indicates whether each agency has listed any ingredient as a carcinogen. |

| Component                                           | CAS-No     | IARC       | NTP        | ACGIH      | OSHA       | Mexico     |
|-----------------------------------------------------|------------|------------|------------|------------|------------|------------|
| Europium chloride (EuCl <sub>3</sub> ), hexahydrate | 13759-92-7 | Not listed | Not listed | Not listed | Not listed | Not listed |
| Europium chloride (EuCl <sub>3</sub> )              | 10025-76-0 | Not listed | Not listed | Not listed | Not listed | Not listed |

|                              |                           |
|------------------------------|---------------------------|
| <b>Mutagenic Effects</b>     | No information available  |
| <b>Reproductive Effects</b>  | No information available. |
| <b>Developmental Effects</b> | No information available. |
| <b>Teratogenicity</b>        | No information available. |

|                                                   |                                                                |
|---------------------------------------------------|----------------------------------------------------------------|
| <b>STOT - single exposure</b>                     | None known                                                     |
| <b>STOT - repeated exposure</b>                   | None known                                                     |
| <b>Aspiration hazard</b>                          | No information available                                       |
| <b>Symptoms / effects, both acute and delayed</b> | No information available                                       |
| <b>Endocrine Disruptor Information</b>            | No information available                                       |
| <b>Other Adverse Effects</b>                      | The toxicological properties have not been fully investigated. |

## 12. Ecological information

### Ecotoxicity

Do not empty into drains.

|                                      |                                                                          |
|--------------------------------------|--------------------------------------------------------------------------|
| <b>Persistence and Degradability</b> | Soluble in water Persistence is unlikely based on information available. |
| <b>Bioaccumulation/ Accumulation</b> | No information available.                                                |
| <b>Mobility</b>                      | Will likely be mobile in the environment due to its water solubility.    |

## 13. Disposal considerations

|                               |                                                                                                                                                                                                                                                                 |
|-------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Waste Disposal Methods</b> | Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations to ensure complete and accurate classification. |
|-------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## 14. Transport information

|                 |               |
|-----------------|---------------|
| <b>DOT</b>      | Not regulated |
| <b>TDG</b>      | Not regulated |
| <b>IATA</b>     | Not regulated |
| <b>IMDG/IMO</b> | Not regulated |

## 15. Regulatory information

### International Inventories
