

## Section 1 - Identification

**Product Name**
**PathoDX Chlamydia Culture Confirmation ®**
**Product Code**
**R62210**
**Address**

 ThermoFisher Scientific Australia Pty Ltd  
 5 Caribbean Drive, Scoresby  
 VICTORIA 3179, Australia

**Emergency Tel.**
**CHEMTREC®**  
**03 9757 4559 or +613 9757 4559**
**Telephone / Fax Numbers**

Tel: 1300 735 292

Fax: 1800 067 639

**E-mail address**

ANZinfo@thermofisher.com

**Recommended Use**

Laboratory chemicals.

**Uses advised against**

 This product does not contain any substance(s) on the Illicit Drug Precursors/Reagents list.  
 This product does not contain any substance(s) subject to Prohibition, Authorization or  
 Restriction. This product contains one or more substance(s) listed on the voluntary  
 National Code of Practice for Chemicals of Security Concern.

## Section 2 - Hazard(s) Identification

**Classification under Safe Work Australia**

Classified as not hazardous according to criteria of Safe Work Australia.

**Physical hazards**

No hazards identified

**Health hazards**

No hazards identified

**Environmental hazards**

No hazards identified

**Label Elements**

None required

**Other information**

No information available

This product does not contain any known or suspected endocrine disruptors

## Section 3 - Composition and Information on Ingredients

| Component           | CAS No     | Weight % |
|---------------------|------------|----------|
| Evens Blue 53       | 314-13-6   | <0.1     |
| MOUNTING FLUID PDMF | 26628-22-8 | <0.1     |
| Sodium azide        | 26628-22-8 | <0.1     |

## Section 4 - First Aid Measures

|                                            |                                                                                                                                                  |
|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Inhalation</b>                          | Remove to fresh air. Get medical attention if symptoms occur.                                                                                    |
| <b>Ingestion</b>                           | Clean mouth with water and drink afterwards plenty of water. Get medical attention.                                                              |
| <b>Skin Contact</b>                        | Wash with plenty of soap and water. Get medical attention if symptoms occur.                                                                     |
| <b>Eye Contact</b>                         | Rinse thoroughly with plenty of water, also under the eyelids. Get medical attention.                                                            |
| <b>Self-Protection of the First Aider</b>  | Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination. |
| <b>First Aid Facilities</b>                | Eyewash, safety shower and washroom.                                                                                                             |
| <b>Most important symptoms and effects</b> | No information available.                                                                                                                        |
| <b>Notes to Physician</b>                  | Treat symptomatically.                                                                                                                           |

## Section 5 - Fire Fighting Measures

### Suitable Extinguishing Media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

### Extinguishing media which must not be used for safety reasons

Use extinguishing method compatible with surroundings.

### Specific Hazards Arising from the Chemical

None known.

### Special protective equipment and precautions for fire fighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

## Section 6 - Accidental Release Measures

### Emergency procedures

Ensure adequate ventilation. Avoid contact with skin and eyes.

### Environmental Precautions

Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. See Section 12 for additional Ecological Information.

### Methods for Containment and Clean Up

#### Clean-up methods - small spillage

Soak up with inert absorbent material: After cleaning, flush away traces with water

### Clean-up methods - large spillage

Typically only supplied in small quantities as packaged goods.

If extremely toxic or used in larger quantities ensure a spillage action plan is in place. Evacuate area. Control the source and/or contain the spill if safe and able to do so. Use temporary diking, sand bags, dry sand, earth or proprietary booms/absorbent pads if available. Obtain advice on containment, neutralisation and clean-up from local emergency responders.

### Reference to Other Sections

Refer to protective measures listed in Sections 8 and 13.

## Section 7 - Handling and Storage

### Precautions for Safe Handling

Ensure adequate ventilation. Avoid contact with skin and eyes.

### Conditions for Safe Storage, Including any Incompatibilities

Keep container tightly closed. Keep at temperatures between 2°C and 8 °C.

AS/NZS 2243.10:2004, Safety in laboratories - Storage of chemicals

## Section 8 - Exposure Controls and Personal Protection

### Exposure limits

**AUS** - Exposure Standards for Atmospheric Contaminants in the Occupational Environment - Guidance Note on the Interpretation of Exposure Standards for Atmospheric Contaminants in the Occupational Environment [NOHSC:3008(1995)]

Adopted National Exposure Standards for Atmospheric Contaminants in the Occupational Environment [NOHSC:1003(1995)] updated in August, 2005. Safe Work Australia

**NZ** - Workplace Exposure Standards and Biological Exposure Indices (6th edition). New Zealand Department of Labor

**UK** - EH40/2005 Work Exposure Limits, Fourth edition. Published 2020.

**ACGIH** - Threshold Limit Values - Ceiling (TLV-C) guidelines by the American Conference of Governmental Industrial Hygienists (ACGIH) for controlling worker exposure to airborne chemical concentrations in the workplace.

**DE** - MAK and BAT values of Hazardous Chemical Compounds in the Work Area. Published by German Research Foundation on July 1, 2011

| Component                              | Australia                            | New Zealand WEL                                      | ACGIH TLV                                            | The United Kingdom                                              | Germany                                  |
|----------------------------------------|--------------------------------------|------------------------------------------------------|------------------------------------------------------|-----------------------------------------------------------------|------------------------------------------|
| MOUNTING FLUID<br>PDMF<br>Sodium azide | CL 0.11 ppm (0.3 mg/m <sup>3</sup> ) | Ceiling: 0.11 ppm<br>Ceiling: 0.29 mg/m <sup>3</sup> | Ceiling: 0.29 mg/m <sup>3</sup><br>Ceiling: 0.11 ppm | Skin<br>TWA 0.1 mg/m <sup>3</sup><br>STEL 0.3 mg/m <sup>3</sup> | MAK 0.2 mg/m <sup>3</sup><br>(inhalable) |
| Sodium azide                           | CL 0.11 ppm (0.3 mg/m <sup>3</sup> ) | Ceiling: 0.11 ppm<br>Ceiling: 0.29 mg/m <sup>3</sup> | Ceiling: 0.29 mg/m <sup>3</sup><br>Ceiling: 0.11 ppm | Skin<br>TWA 0.1 mg/m <sup>3</sup><br>STEL 0.3 mg/m <sup>3</sup> | MAK 0.2 mg/m <sup>3</sup><br>(inhalable) |

### Biological limit values

This product, as supplied, does not contain any hazardous materials with biological limits established by the region specific regulatory bodies

### Exposure Controls

#### Engineering Measures

Provide appropriate exhaust ventilation at places where dust is formed.

Wherever possible, engineering control measures such as the isolation or enclosure of the process, the introduction of process or equipment changes to minimise release or contact, and the use of properly designed ventilation systems, should be adopted to control hazardous materials at source

### Personal protective equipment

#### Eye Protection

If splashes are likely to occur: Wear safety glasses with side shields (or goggles) (Australian/New Zealand Standard AS/NZS 1337 - Eye protectors for Industrial applications)

#### Hand Protection

Protective gloves

| Glove material    | Breakthrough time                 | Glove thickness | AUS/NZ Standard | Glove comments        |
|-------------------|-----------------------------------|-----------------|-----------------|-----------------------|
| Disposable gloves | See manufacturers recommendations | -               | AS/NZS 2161     | (minimum requirement) |

Inspect gloves before use.

Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves.  
(Refer to manufacturer/supplier for information)

Ensure gloves are suitable for the task: Chemical compatability, Dexterity, Operational conditions, User susceptibility, e.g. sensitisation effects, also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion.

Remove gloves with care avoiding skin contamination.

**Skin and body protection**

Wear protective gloves/protective clothing

**Respiratory Protection**

Use an AS/NZS 1716 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced. To protect the wearer, respiratory protective equipment must be the correct fit and be used and maintained in line with AS/NZS 1715 on the use and maintenance of respiratory protective devices (or AUS/NZ equivalent)  
When RPE is used a face piece Fit Test should be conducted

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice.

**Environmental exposure controls**

Prevent product from entering drains.

## Section 9 - Physical and Chemical Properties

Information on basic physical and chemical properties

|                                         |                          |                                          |
|-----------------------------------------|--------------------------|------------------------------------------|
| Appearance                              | Clear                    |                                          |
| Physical State                          | Liquid                   |                                          |
| Odor                                    | No information available |                                          |
| Odor Threshold                          | No data available        |                                          |

| Flammability (solid,gas)                | No information available |                                          |
| Explosion Limits                        | No data available        |                                          |
| Vapor Pressure                          | No data available        |                                          |
| Vapor Density                           | No data available        | (Air = 1.0)                              |
| Specific Gravity / Density              | No data available        |                                          |
| Bulk Density                            | No data available        |                                          |
| Water Solubility                        | No information available |                                          |
| Solubility in other solvents            | No information available |                                          |
| Partition Coefficient (n-octanol/water) |                          |                                          |
| Autoignition Temperature                | Not applicable           |                                          |
| Decomposition Temperature               | No data available        |                                          |
| Viscosity                               | No data available        |                                          |
| Explosive Properties                    | No information available |                                          |
| Oxidizing Properties                    | No information available |                                          |

Other information

## Section 10 - Stability and Reactivity

|                                         |                                                                            |
|-----------------------------------------|----------------------------------------------------------------------------|
| <b>Reactivity</b>                       | None known, based on information available                                 |
| <b>Stability</b>                        | Stable under recommended storage conditions.                               |
| <b>Conditions to Avoid</b>              | Protect from direct sunlight, Protect from moisture, Avoid dust formation. |
| <b>Incompatible Materials</b>           | Strong oxidizing agents, Acids, Lead, copper.                              |
| <b>Hazardous Decomposition Products</b> | None under normal use conditions.                                          |
| <b>Hazardous Polymerization</b>         | Hazardous polymerization does not occur.                                   |

## Section 11 - Toxicological Information

### Information on Toxicological Effects

**Product Information** Product does not present an acute toxicity hazard based on known or supplied information

**(a) acute toxicity;**

|                   |                   |
|-------------------|-------------------|
| <b>Oral</b>       | No data available |
| <b>Dermal</b>     | No data available |
| <b>Inhalation</b> | No data available |

| Component                            | LD50 Oral               | LD50 Dermal                | LC50 Inhalation                       |
|--------------------------------------|-------------------------|----------------------------|---------------------------------------|
| MOUNTING FLUID PD MF<br>Sodium azide | LD50 = 27 mg/kg ( Rat ) | LD50 = 20 mg/kg ( Rabbit ) | LC50 0.054 - 0.52 mg/L ( Rat )<br>4 h |
| Sodium azide                         | LD50 = 27 mg/kg ( Rat ) | -                          | LC50 0.054 - 0.52 mg/L ( Rat )<br>4 h |

**(b) skin corrosion/irritation;** No data available

**(c) serious eye damage/irritation;** No data available

**(d) respiratory or skin sensitization;**

|                    |                   |
|--------------------|-------------------|
| <b>Respiratory</b> | No data available |
| <b>Skin</b>        | No data available |

**Sensitization** None known

**(e) germ cell mutagenicity;** No data available

None known

**(f) carcinogenicity;** No data available  
No known carcinogens are present at greater than 0.1%

**(g) reproductive toxicity;** No data available  
**Reproductive Effects** None known  
**Developmental Effects** None known  
**Neurological Effects** None known

**(h) STOT-single exposure;** No data available

**(i) STOT-repeated exposure;** No data available

**Target Organs** No information available.

**(j) aspiration hazard;** No data available

**Symptoms / effects, both acute and delayed** No information available

## Section 12 - Ecological Information

**Ecotoxicity effects** Contains a substance which is: Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment. However, at the concentration present, this preparation is not expected to present significant adverse environmental effects.

| Component                           | Freshwater Fish                                                                                                                                                     | Water Flea | Freshwater Algae | Microtox |
|-------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|------------------|----------|
| MOUNTING FLUID PDMF<br>Sodium azide | LC50: = 0.7 mg/L, 96h<br>(Lepomis macrochirus)<br>LC50: = 0.8 mg/L, 96h<br>(Oncorhynchus mykiss)<br>LC50: = 5.46 mg/L, 96h<br>flow-through<br>(Pimephales promelas) |            |                  |          |
| Sodium azide                        | LC50: = 0.7 mg/L, 96h<br>(Lepomis macrochirus)<br>LC50: = 0.8 mg/L, 96h<br>(Oncorhynchus mykiss)<br>LC50: = 5.46 mg/L, 96h<br>flow-through<br>(Pimephales promelas) |            |                  |          |

**Persistence and Degradability** Not readily biodegradable  
**Bioaccumulative Potential** Bioaccumulation is unlikely

**Mobility** Soluble.

**Other adverse effects**

None known

**Endocrine Disruptor Information** None known

**Persistent Organic Pollutant** This product does not contain any known or suspected substance

**Ozone Depletion Potential** This product does not contain any known or suspected substance

## Section 13 - Disposal Considerations

**Waste from Residues/Unused Products** Do not allow into drains or watercourses or dispose of where ground or surface waters may be affected. Wastes, including emptied containers, are controlled wastes and should be disposed of in accordance with all federal, E.P.A., state and local regulations. Assure conformity with all applicable regulations.

**Contaminated Packaging** Empty remaining contents. Dispose of in accordance with local regulations. Do not re-use empty containers.

**Other Information** Chemical wastes should be disposed through a licensed commercial waste collection service.

## Section 14 - Transport Information

**IMDG/IMO** Not regulated

**ADG** Not regulated

| Component                                                  | Hazchem Code |
|------------------------------------------------------------|--------------|
| MOUNTING FLUID PDMF<br>Sodium azide<br>26628-22-8 ( <0.1 ) | 2XE          |
| Sodium azide<br>26628-22-8 ( <0.1 )                        | 2XE          |

**IATA** Not regulated

**Environmental hazards** No hazards identified

**Special Precautions** No special precautions required

**Additional information** None known

## Section 15 - Regulatory Information

### Safety, health and environmental regulations/legislation specific for the substance or mixture

**National Regulations** Australia

See section 8 for national exposure control parameters.

### **Standard for the Uniform Scheduling of Medicines and Poisons**

Classified as a scheduled poison according to the Standard for Uniform Scheduling of Medicines and Poisons.

| Component                | Standard for the Uniform Scheduling of Medicines and Poisons |
|--------------------------|--------------------------------------------------------------|
| Evens Blue 53 - 314-13-6 | Schedule 7 listed                                            |

### **Australian Industrial Chemicals Introduction Scheme (AICIS)**

| Component                                        | Australian Industrial Chemicals Introduction Scheme (AICIS) | Additional information |
|--------------------------------------------------|-------------------------------------------------------------|------------------------|
| Evens Blue 53 - 314-13-6                         | Present                                                     | -                      |

### **Australian - Illicit Drug Precursors/Reagents Substance List**

This product does not contain any substance(s) on the Illicit Drug Precursors/Reagents list.

### **Chemicals of Security Concern**

This product contains one or more substance(s) listed on the voluntary National Code of Practice for Chemicals of Security Concern

| Component                                        | Australian - Illicit Drug Precursors/Reagents Substance List | Chemicals of Security Concern                                                      |

| MOUNTING FLUID PDMF<br>Sodium azide - 26628-22-8 |                                                              | Listed in Appendix A<br>Precursors to homemade explosives -<br>concentration >=95% |
| Sodium azide - 26628-22-8                        |                                                              | Listed in Appendix A<br>Precursors to homemade explosives -<br>concentration >=95% |

**Legend**

**Chemicals of Security Concern** - for further information see <http://www.chemicalsecurity.gov.au/securityconcerns>

**National pollutant inventory** Not applicable

**Prohibition or notification/licensing requirements**

Shown below are details of specific prohibition/notifications or licencing requirements when they apply.

This product does not contain any substance(s) subject to Prohibition, Authorization or Restriction.

**International Inventories**
