

# SAFETY DATA SHEET

Revision Date 06-Dec-2023

WAI1 - AGHS - OSHA

Revision Number 3

## 1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

### Product Identifier

**Product Name** Nitrate 3 (as NO<sub>3</sub>)-HR

**Product No** AC4007-FOIL

**Pure substance/mixture** Mixture

Contains Tartaric Acid, Cadmium

### Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Use as laboratory reagent

**Uses advised against** No Information available

**Manufacturer, Importer, Supplier** Thermo Fisher Scientific©  
Water and Lab Products  
22 Alpha Road  
Chelmsford, MA 01824, USA  
1-978-232-6000

**Emergency Telephone** 24 Hour Emergency Phone Number  
CHEMTREC®  
Within USA and Canada: 1-800-424-9300  
Outside USA and Canada: 1-703-527-3887  
(collect calls accepted)

**E-mail address** [wlp.techsupport@thermofisher.com](mailto:wlp.techsupport@thermofisher.com)

**Made in** USA

## 2. HAZARDS IDENTIFICATION

### Classification

#### **OSHA Regulatory Status**

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

|                                                      |             |
|------------------------------------------------------|-------------|
| Acute Inhalation Toxicity - Dusts and Mists          | Category 2  |
| Serious Eye Damage/Eye Irritation                    | Category 1  |
| Germ Cell Mutagenicity                               | Category 2  |
| Carcinogenicity                                      | Category 1B |
| Reproductive Toxicity                                | Category 2  |
| Specific target organ toxicity - (repeated exposure) | Category 1  |

### Label Elements

Contains Tartaric Acid, Cadmium

### **Emergency Overview**

#### **Danger**

#### **Hazard Statements**

Fatal if inhaled  
Causes serious eye damage  
Suspected of causing genetic defects  
May cause cancer  
Suspected of damaging fertility or the unborn child  
Causes damage to organs through prolonged or repeated exposure

**Appearance** Blue Metallic Powder

**Physical State** Solid

**Odor** Odorless

### Precautionary Statements

#### **Prevention**

Obtain special instructions before use  
Do not handle until all safety precautions have been read and understood  
Use personal protective equipment as required  
Do not breathe dust/fume/gas/mist/vapors/spray  
Use only outdoors or in a well-ventilated area  
Wear respiratory protection  
Wash face, hands and any exposed skin thoroughly after handling  
Do not eat, drink or smoke when using this product

#### **Response**

IF exposed or concerned: Get medical attention/advice

#### **Eyes**

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing  
Immediately call a POISON CENTER or doctor/physician

**Inhalation**

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing  
Immediately call a POISON CENTER or doctor/physician

**Storage**

Store locked up  
Store in a well-ventilated place. Keep container tightly closed

**Disposal**

Dispose of contents/container to an approved waste disposal plant

**Hazards not otherwise classified (HNOC)**

No information available

**Other Information**

May be harmful in contact with skin  
Very toxic to aquatic life with long lasting effects  
Very toxic to aquatic organisms

Unknown Acute Toxicity                      37.5 percent of the mixture consists of ingredient(s) of unknown acute toxicity

**3. COMPOSITION/INFORMATION ON INGREDIENTS**

| Component                    | CAS No     | Weight % |
|------------------------------|------------|----------|
| Tartaric Acid                | 87-69-4    | 20 - 30% |
| Sodium Sulfate               | 7757-82-6  | 20 - 30% |
| Sodium Tartrate              | 868-18-8   | 10 - 20% |
| CDTA Trisodium Salt          | 36679-96-6 | 1 - 10%  |
| Magnesium Sulfate, Anhydrous | 7487-88-9  | 1 - 10%  |
| Cadmium                      | 7440-43-9  | 1 - 10%  |

\*The exact percentage (concentration) of composition has been withheld as a trade secret.

**4. FIRST AID MEASURES**

**Description of first aid measures**

|                       |                                                                                                                                                                                                                                                                                                                                |
|-----------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>General Advice</b> | Show this safety data sheet to the doctor in attendance. Immediate medical attention is required.                                                                                                                                                                                                                              |
| <b>Eye Contact</b>    | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice.                                                                                                                                     |
| <b>Skin Contact</b>   | Wash off immediately with plenty of water for at least 15 minutes. Immediate medical attention is required.                                                                                                                                                                                                                    |
| <b>Inhalation</b>     | Remove to fresh air. If not breathing, give artificial respiration. Do not use mouth-to-mouth method if victim ingested or inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Immediate medical attention is required. |

|                                           |                                                                                                                                                                                                                                                                                                      |
|-------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Ingestion</b>                          | Do NOT induce vomiting. Call a physician or poison control center immediately.                                                                                                                                                                                                                       |
| <b>Self-Protection of the First Aider</b> | Use personal protective equipment as required. See section 8 for more information. Do not use mouth-to-mouth method if victim ingested or inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. |

**Most important symptoms and effects, both acute and delayed**

|                                            |                                           |
|--------------------------------------------|-------------------------------------------|
| <b>Most important symptoms and effects</b> | Causes eye burns Causes severe eye damage |
|--------------------------------------------|-------------------------------------------|

**Indication of any immediate medical attention and special treatment needed**

|                           |                       |
|---------------------------|-----------------------|
| <b>Notes to Physician</b> | Treat symptomatically |
|---------------------------|-----------------------|

**5. FIRE-FIGHTING MEASURES**

**Suitable Extinguishing Media**

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

**Unsuitable Extinguishing Media**

No information available

**Specific Hazards Arising from the Chemical**

No information available.

**Explosion Data**

**Sensitivity to Mechanical Impact** None

**Sensitivity to Static Discharge** None

**Protective Equipment and Precautions for Firefighters**

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Thermal decomposition can lead to release of irritating gases and vapors.

**6. ACCIDENTAL RELEASE MEASURES**

**Personal Precautions, Protective Equipment and Emergency Procedures**

|                                         |                                                                                                                                                                                     |
|-----------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Personal Precautions</b>             | Ensure adequate ventilation. Use personal protective equipment as required. Avoid dust formation. Keep people away from and upwind of spill/leak. Evacuate personnel to safe areas. |
| <b><u>Environmental Precautions</u></b> | Do not flush into surface water or sanitary sewer system. Vapors may accumulate to form explosive concentrations.                                                                   |

**Methods and Material for Containment and Cleaning Up**

|                                |                                                                                             |
|--------------------------------|---------------------------------------------------------------------------------------------|
| <b>Methods for Containment</b> | Prevent further leakage or spillage if safe to do so.                                       |
| <b>Methods for Cleaning Up</b> | Soak up with inert absorbent material. Pick up and transfer to properly labeled containers. |

**7. HANDLING AND STORAGE**

**Precautions for Safe Handling**

|                 |                                                                                                                                                                                                             |
|-----------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Handling</b> | Wear personal protective equipment/face protection<br>Do not get in eyes, on skin, or on clothing<br>Avoid dust formation<br>Use only under a chemical fume hood<br>Do not breathe (dust, vapor, mist, gas) |
|-----------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

Do not ingest. If swallowed then seek immediate medical assistance

**Conditions for Safe Storage, Including any Incompatibilities**

**Storage** Keep container tightly closed in a dry and well-ventilated place  
Store at room temperature in the original container  
Protect from direct sunlight

**Incompatible Products** No information available

**8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

**Control parameters**

**Exposure Guidelines**

| Component            | ACGIH TLV                                                   | OSHA PEL                                                                                                                | NIOSH                     |
|----------------------|-------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------|---------------------------|
| Cadmium<br>7440-43-9 | TWA: 0.01 mg/m <sup>3</sup><br>TWA: 0.002 mg/m <sup>3</sup> | Ceiling: 0.3 mg/m <sup>3</sup><br>Ceiling: 0.6 mg/m <sup>3</sup><br>(Vacated) STEL: 0.3 ppm<br>TWA: 5 µg/m <sup>3</sup> | IDLH: 9 mg/m <sup>3</sup> |

**Legend**

ACGIH TLV: American Conference of Governmental Industrial Hygienists - Threshold Limit Value

OSHA PEL: Occupational Safety and Health Administration - Permissible Exposure Limits

NIOSH - National Institute for Occupational Safety and Health IDLH - Immediately Dangerous to Life or Health

**Appropriate engineering controls**

**Engineering Measures** Ensure that eyewash stations and safety showers are close to the workstation location

**Individual protection measures, such as personal protective equipment**

**Eye/face Protection** Wear chemical splash goggles and face shield. If splashes are likely to occur: Face protection shield.

**Skin and Body Protection** Wear protective gloves/protective clothing.

**Respiratory Protection** None under normal use conditions. In case of inadequate ventilation wear respiratory protection.

**Hygiene Measures** Handle in accordance with good industrial hygiene and safety practice.

**9. PHYSICAL AND CHEMICAL PROPERTIES**

**Information on basic physical and chemical properties**

**Physical State** Solid  
**Appearance** Blue Metallic Powder  
**Odor** Odorless  
**Odor Threshold** No information available  
**pH** 3.4  
**PH Range** 1.9-4.9

| <u>Property</u>                     | <u>Values</u>            | <u>Remarks • Method</u> |
|-------------------------------------|--------------------------|-------------------------|
| <b>Melting point/freezing point</b> | No information available |                         |

| <b>Evaporation Rate</b>             | No information available |
| <b>Flammability (solid, gas)</b>    | No information available |
| <b>Flammability Limit in Air</b>    |                          |
| <b>Upper flammability limit:</b>    | No information available |
| <b>Lower flammability limit:</b>    | No information available |
| <b>Vapor pressure</b>               | No information available |
| <b>Vapor Density</b>                | No information available |
| <b>Specific Gravity</b>             | No information available |
| <b>Water Solubility</b>             | Soluble in water         |
| <b>Solubility in other solvents</b> | No information available |
| <b>Partition coefficient</b>        | No information available |
| <b>Autoignition Temperature</b>     | -                        |
| <b>Decomposition Temperature</b>    | No information available |
| <b>Kinematic viscosity</b>          | No information available |
| <b>Dynamic viscosity</b>            | No information available |
| <b>Explosive Properties</b>         | No information available |
| <b>Oxidizing Properties</b>         | No information available |

**Other Information**

|                         |                          |
|-------------------------|--------------------------|
| <b>Softening Point</b>  | No information available |
| <b>Molecular Weight</b> | No information available |
| <b>VOC Content(%)</b>   | No information available |
| <b>Density</b>          | No Information available |
| <b>Bulk Density</b>     | No information available |

## 10. STABILITY AND REACTIVITY

**Reactivity**

No Information available

**Chemical Stability**

Stable under normal conditions

**Possibility of Hazardous Reactions**

None under normal processing

**Conditions to Avoid**

Extremes of temperature and direct sunlight.

**Incompatible Materials**

No information available

**Hazardous Decomposition Products**

Thermal decomposition can lead to release of irritating gases and vapors.

## 11. TOXICOLOGICAL INFORMATION

**Information on likely routes of exposure**

**Product Information**

*NTP: (National Toxicity Program)*

*ACGIH: (American Conference of Governmental Industrial Hygienists)*

**Reproductive Effects** No information available

**STOT - single exposure** No information available

**STOT - repeated exposure** No information available

**Aspiration hazard** No information available

#### Numerical measures of toxicity - Product Information

**Unknown Acute Toxicity** 37.5 percent of the mixture consists of ingredient(s) of unknown acute toxicity

The following values are calculated based on chapter 3.1 of the GHS document .

**ATEmix (oral)** 6886 mg/kg

**ATEmix (dermal)** 2867 mg/kg

**ATEmix (inhalation-dust/mist)** 0.4 mg/L

## **12. ECOLOGICAL INFORMATION**

#### Ecotoxicity

30% of the mixture consists of component(s) of unknown hazards to the aquatic environment

| Component                                 | Freshwater Algae                                 | Freshwater Fish                                                                                                                                                                                                                                                                                                                                                                                                                              | Water Flea                                           |

### **U.S. Federal Regulations**

#### **SARA 313**

#### **SARA 311/312 Hazard Categories**

Should this product meet EPCRA 311/312 Tier reporting criteria at 40 CFR 370, refer to Section 2 of this SDS for appropriate classifications. Under the amended regulations at 40 CFR 370, EPCRA 311/312 Tier II reporting for the 2017 calendar year will need to be consistent with updated hazard classifications.

#### **CWA (Clean Water Act)**
