Revision Number 2

## SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

### 1.1. Product identifier

|                                  |                                                                                |
|----------------------------------|--------------------------------------------------------------------------------|
| <b>Product Description:</b>      | <b>Thiamine hydrochloride, USB Bioanalysed,</b>                                |
| <b>Cat No. :</b>                 | <b>S22170</b>                                                                  |
| <b>Synonyms</b>                  | Thiamine Chloride Hydrochloride; Thiamine Dichloride; Vitamin B1 hydrochloride |
| <b>CAS No</b>                    | 67-03-8                                                                        |
| <b>EC No</b>                     | 200-641-8                                                                      |
| <b>Molecular Formula</b>         | C <sub>12</sub> H <sub>17</sub> N <sub>4</sub> O <sub>4</sub> SCl.HCl          |
| <b>REACH registration number</b> | -                                                                              |

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

|                             |                          |
|-----------------------------|--------------------------|
| <b>Recommended Use</b>      | Laboratory chemicals.    |
| <b>Uses advised against</b> | No Information available |

### 1.3. Details of the supplier of the safety data sheet

|                |                                                                                                                                                                                                              |
|----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Company</b> | Avocado Research Chemicals Ltd.<br>(Part of Thermo Fisher Scientific)<br>Shore Road, Heysham<br>Lancashire, LA3 2XY,<br>United Kingdom<br>Office Tel: +44 (0) 1524 850506<br>Office Fax: +44 (0) 1524 850608 |
|----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|                       |                                |
|-----------------------|--------------------------------|
| <b>E-mail address</b> | begel.sdsdesk@thermofisher.com |
|-----------------------|--------------------------------|

### 1.4. Emergency telephone number

For information **US** call: 001-800-227-6701 / **Europe** call: +32 14 57 52 11  
Emergency Number **US**:001-201-796-7100 / **Europe**: +32 14 57 52 99  
**CHEMTREC** Tel. No. **US**:001-800-424-9300 / **Europe**:001-703-527-3887

## SECTION 2: HAZARDS IDENTIFICATION

### 2.1. Classification of the substance or mixture

**CLP Classification - According to GB-CLP Regulations UK SI 2019/720 and UK SI 2020/1567**

#### Physical hazards

Based on available data, the classification criteria are not met

#### Health hazards

# SAFETY DATA SHEET

Thiamine hydrochloride, USB Bioanalysed,

Revision Date 22-Mar-2024

Serious Eye Damage/Eye Irritation

Category 2 (H319)

## **Environmental hazards**

Based on available data, the classification criteria are not met

Full text of Hazard Statements: see section 16

## **2.2. Label elements**

Signal Word

Warning

## **Hazard Statements**

H319 - Causes serious eye irritation

May form combustible dust concentrations in air

## **Precautionary Statements**

P280 - Wear eye protection/ face protection

P264 - Wash face, hands and any exposed skin thoroughly after handling

P337 + P313 - If eye irritation persists: Get medical advice/attention

## **2.3. Other hazards**

Substance is not considered persistent, bioaccumulative and toxic (PBT) / very persistent and very bioaccumulative (vPvB)

May form explosible dust-air mixture if dispersed

This product does not contain any known or suspected endocrine disruptors

## **SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS**

### **3.1. Substances**

| Component                                                                                                                 | CAS No  | EC No             | Weight % | CLP Classification - According to GB-CLP Regulations UK SI 2019/720 and UK SI 2020/1567 |
|---------------------------------------------------------------------------------------------------------------------------|---------|-------------------|----------|-----------------------------------------------------------------------------------------|
| Thiazolium,<br>3-[(4-amino-2-methyl-5-pyrimidinyl)methyl]-<br>5-(2-hydroxyethyl)-4-methyl- chloride,<br>monohydrochloride | 67-03-8 | EEC No. 200-641-8 | >95      | Eye Irrit. 2 (H319)                                                                     |

REACH registration number

-

## **SECTION 4: FIRST AID MEASURES**

ALFAAS22170

# SAFETY DATA SHEET

Thiamine hydrochloride, USB Bioanalysed,

Revision Date 22-Mar-2024

## 4.1. Description of first aid measures

|                                           |                                                                                                                   |
|-------------------------------------------|-------------------------------------------------------------------------------------------------------------------|
| <b>General Advice</b>                     | If symptoms persist, call a physician.                                                                            |
| <b>Eye Contact</b>                        | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Get medical attention.   |
| <b>Skin Contact</b>                       | Wash off immediately with plenty of water for at least 15 minutes. If skin irritation persists, call a physician. |
| <b>Ingestion</b>                          | Get medical attention if symptoms occur. Clean mouth with water and drink afterwards plenty of water.             |
| <b>Inhalation</b>                         | Remove to fresh air. If not breathing, give artificial respiration. Get medical attention if symptoms occur.      |
| <b>Self-Protection of the First Aider</b> | No special precautions required.                                                                                  |

## 4.2. Most important symptoms and effects, both acute and delayed

None reasonably foreseeable.

## 4.3. Indication of any immediate medical attention and special treatment needed

**Notes to Physician** Treat symptomatically.

## SECTION 5: FIREFIGHTING MEASURES

### 5.1. Extinguishing media

#### **Suitable Extinguishing Media**

Water spray, carbon dioxide (CO<sub>2</sub>), dry chemical, alcohol-resistant foam.

#### **Extinguishing media which must not be used for safety reasons**

No information available.

### 5.2. Special hazards arising from the substance or mixture

Fine dust dispersed in air may ignite. Thermal decomposition can lead to release of irritating gases and vapors. Keep product and empty container away from heat and sources of ignition.

#### **Hazardous Combustion Products**

Nitrogen oxides (NO<sub>x</sub>), Carbon monoxide (CO), Carbon dioxide (CO<sub>2</sub>), Sulfur oxides, Hydrogen chloride gas.

### 5.3. Advice for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

## SECTION 6: ACCIDENTAL RELEASE MEASURES

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment as required. Ensure adequate ventilation. Avoid dust formation.

### 6.2. Environmental precautions

# SAFETY DATA SHEET

Thiamine hydrochloride, USB Bioanalysed,

Revision Date 22-Mar-2024

Should not be released into the environment.

## 6.3. Methods and material for containment and cleaning up

Sweep up and shovel into suitable containers for disposal. Keep in suitable, closed containers for disposal.

## 6.4. Reference to other sections

Refer to protective measures listed in Sections 8 and 13.

## SECTION 7: HANDLING AND STORAGE

### 7.1. Precautions for safe handling

Wear personal protective equipment/face protection. Ensure adequate ventilation. Avoid dust formation. Avoid ingestion and inhalation. Do not get in eyes, on skin, or on clothing.

#### Hygiene Measures

Handle in accordance with good industrial hygiene and safety practice. Keep away from food, drink and animal feeding stuffs. Do not eat, drink or smoke when using this product. Remove and wash contaminated clothing and gloves, including the inside, before re-use. Wash hands before breaks and after work.

### 7.2. Conditions for safe storage, including any incompatibilities

Keep in a dry, cool and well-ventilated place. Keep container tightly closed. Keep under nitrogen. Store under an inert atmosphere. Keep container tightly closed in a dry and well-ventilated place. Protect from moisture.

Technical Rules for Hazardous Substances (TRGS) 510      Class 11  
Storage Class (LGK) (Germany)

### 7.3. Specific end use(s)

Use in laboratories

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

### 8.1. Control parameters

#### Exposure limits

This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies

#### Biological limit values

This product, as supplied, does not contain any hazardous materials with biological limits established by the region specific regulatory bodies

#### Derived No Effect Level (DNEL) / Derived Minimum Effect Level (DMEL)

See table for values

| Component                                   | Acute effects local (Dermal) | Acute effects systemic (Dermal) | Chronic effects local (Dermal) | Chronic effects systemic (Dermal) |
|---------------------------------------------|------------------------------|---------------------------------|--------------------------------|-----------------------------------|
| Thiazolium, 3-[(4-amino-2-methyl-5-pyrimidi |                              |                                 |                                | DNEL = 3.3mg/kg bw/day            |

# SAFETY DATA SHEET

Thiamine hydrochloride, USB Bioanalysed,

Revision Date 22-Mar-2024

|                                                                                      |  |  |  |  |
|--------------------------------------------------------------------------------------|--|--|--|--|
| nyl)methyl]-5-(2-hydroxyethyl)-4-methyl- chloride, monohydrochloride 67-03-8 ( >95 ) |  |  |  |  |
|--------------------------------------------------------------------------------------|--|--|--|--|

| Component                                                                                                                       | Acute effects local (Inhalation) | Acute effects systemic (Inhalation) | Chronic effects local (Inhalation) | Chronic effects systemic (Inhalation) |
|---------------------------------------------------------------------------------------------------------------------------------|----------------------------------|-------------------------------------|------------------------------------|---------------------------------------|
| Thiazolium, 3-[(4-amino-2-methyl-5-pyrimidinyl)methyl]-5-(2-hydroxyethyl)-4-methyl- chloride, monohydrochloride 67-03-8 ( >95 ) |                                  |                                     |                                    | DNEL = 11mg/m <sup>3</sup>            |

## Predicted No Effect Concentration (PNEC)

See values below.

| Component                                                                                                                       | Fresh water    | Fresh water sediment          | Water Intermittent | Microorganisms in sewage treatment | Soil (Agriculture)         |
|---------------------------------------------------------------------------------------------------------------------------------|----------------|-------------------------------|--------------------|------------------------------------|----------------------------|
| Thiazolium, 3-[(4-amino-2-methyl-5-pyrimidinyl)methyl]-5-(2-hydroxyethyl)-4-methyl- chloride, monohydrochloride 67-03-8 ( >95 ) | PNEC = 0.1mg/L | PNEC = 0.363mg/kg sediment dw | PNEC = 1mg/L       | PNEC = 2.17mg/L                    | PNEC = 0.0139mg/kg soil dw |

| Component                                                                                                                       | Marine water    | Marine water sediment          | Marine water intermittent | Food chain | Air |
|---------------------------------------------------------------------------------------------------------------------------------|-----------------|--------------------------------|---------------------------|------------|-----|
| Thiazolium, 3-[(4-amino-2-methyl-5-pyrimidinyl)methyl]-5-(2-hydroxyethyl)-4-methyl- chloride, monohydrochloride 67-03-8 ( >95 ) | PNEC = 0.01mg/L | PNEC = 0.0363mg/kg sediment dw | PNEC = 0.1mg/L            |            |     |

## 8.2. Exposure controls

### Engineering Measures

Ensure adequate ventilation, especially in confined areas. Ensure that eyewash stations and safety showers are close to the workstation location.

### Personal protective equipment

#### Eye Protection

Goggles (European standard - EN 166)

#### Hand Protection

Protective gloves

| Glove material | Breakthrough time                 | Glove thickness | EU standard | Glove comments        |
|----------------|-----------------------------------|-----------------|-------------|-----------------------|
| Nitrile rubber | See manufacturers recommendations | -               | EN 374      | (minimum requirement) |
| Neoprene       |                                   |                 |             |                       |
| Natural rubber |                                   |                 |             |                       |
| PVC            |                                   |                 |             |                       |

#### Skin and body protection

Long sleeved clothing.

Inspect gloves before use.

Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. (Refer to manufacturer/supplier for information)

Ensure gloves are suitable for the task: Chemical compatability, Dexterity, Operational conditions, User susceptibility, e.g. sensitisation effects, also take into consideration the specific local conditions under which the product is used, such as the danger

# SAFETY DATA SHEET

Thiamine hydrochloride, USB Bioanalysed,

Revision Date 22-Mar-2024

of cuts, abrasion.

Remove gloves with care avoiding skin contamination.

## Respiratory Protection

When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.

## Large scale/emergency use

Use a NIOSH/MSHA or European Standard EN 136 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced

**Recommended Filter type:** Particle filter

## Small scale/Laboratory use

Maintain adequate ventilation

## Environmental exposure controls

No information available.

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

### 9.1. Information on basic physical and chemical properties

|                                         |                                |                                   |
|-----------------------------------------|--------------------------------|-----------------------------------|
| Physical State                          | Solid                          |                                   |
| Appearance                              | Off-white                      |                                   |
| Odor                                    | Characteristic                 |                                   |
| Odor Threshold                          | No data available              |                                   |
| Melting Point/Range                     | 250 °C / 482 °F                | (with decomposition)              |
| Softening Point                         | No data available              |                                   |
| Boiling Point/Range                     | Not applicable                 |                                   |
| Flammability (liquid)                   | Not applicable                 | Solid                             |
| Flammability (solid,gas)                | No information available       |                                   |
| Explosion Limits                        | No data available              |                                   |
| Flash Point                             | Not applicable 100 °C / 212 °F | Method - No information available |
| Autoignition Temperature                | No data available              |                                   |
| Decomposition Temperature               | 248 °C                         |                                   |
| pH                                      | 2.7 - 3.4                      | (1 %)                             |

### 9.2. Other information

|                   |                        |
|-------------------|------------------------|
| Molecular Formula | C12H17N4OSCl.HCl       |
| Molecular Weight  | 337.26                 |
| Evaporation Rate  | Not applicable - Solid |

## SECTION 10: STABILITY AND REACTIVITY

# SAFETY DATA SHEET

Thiamine hydrochloride, USB Bioanalysed,

Revision Date 22-Mar-2024

## 10.1. Reactivity

Yes

## 10.2. Chemical stability

Hygroscopic. Light sensitive.

## 10.3. Possibility of hazardous reactions

### Hazardous Polymerization Hazardous Reactions

Hazardous polymerization does not occur.  
None under normal processing.

## 10.4. Conditions to avoid

Avoid dust formation. Incompatible products. Excess heat. Exposure to light. Exposure to moisture. Exposure to moist air or water.

## 10.5. Incompatible materials

Bases. Strong oxidizing agents. Metals. Reducing Agent. Sulfides.

## 10.6. Hazardous decomposition products

Nitrogen oxides (NO<sub>x</sub>). Carbon monoxide (CO). Carbon dioxide (CO<sub>2</sub>). Sulfur oxides.  
Hydrogen chloride gas.

## SECTION 11: TOXICOLOGICAL INFORMATION

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

#### Product Information

#### (a) acute toxicity;

Oral

Based on available data, the classification criteria are not met

Dermal

No data available

Inhalation

No data available

| Component                                                                                                                 | LD50 Oral                 | LD50 Dermal | LC50 Inhalation |
|---------------------------------------------------------------------------------------------------------------------------|---------------------------|-------------|-----------------|
| Thiazolium,<br>3-[(4-amino-2-methyl-5-pyrimidinyl)methyl]-<br>5-(2-hydroxyethyl)-4-methyl- chloride,<br>monohydrochloride | LD50 = 3710 mg/kg ( Rat ) | -           | -               |

#### (b) skin corrosion/irritation;

No data available

#### (c) serious eye damage/irritation;

Category 2

#### (d) respiratory or skin sensitization;

Respiratory

No data available

Skin

No data available

#### (e) germ cell mutagenicity;

No data available

#### (f) carcinogenicity;

No data available

There are no known carcinogenic chemicals in this product

#### (g) reproductive toxicity;

No data available

# SAFETY DATA SHEET

Thiamine hydrochloride, USB Bioanalysed,

Revision Date 22-Mar-2024

(h) STOT-single exposure; No data available

(i) STOT-repeated exposure; No data available

Target Organs No information available.

(j) aspiration hazard; Not applicable  
Solid

Other Adverse Effects The toxicological properties have not been fully investigated.

Symptoms / effects,both acute and delayed No information available.

## 11.2. Information on other hazards

Endocrine Disrupting Properties Assess endocrine disrupting properties for human health. This product does not contain any known or suspected endocrine disruptors.

## SECTION 12: ECOLOGICAL INFORMATION

### 12.1. Toxicity Ecotoxicity effects

| Component                                                                                                                 | Freshwater Fish    | Water Flea         | Freshwater Algae |
|---------------------------------------------------------------------------------------------------------------------------|--------------------|--------------------|------------------|
| Thiazolium,<br>3-[(4-amino-2-methyl-5-pyrimidinyl)methyl]-<br>5-(2-hydroxyethyl)-4-methyl- chloride,<br>monohydrochloride | LC50 >100 mg/L/96h | EC50 >100 mg/L/48h |                  |

12.2. Persistence and degradability Biodegradability: 74%; 7d (OECD 302B)  
Persistence May persist, based on information available.

12.3. Bioaccumulative potential May have some potential to bioaccumulate

| Component                                                                                                                 | log Pow | Bioconcentration factor (BCF) |
|---------------------------------------------------------------------------------------------------------------------------|---------|-------------------------------|
| Thiazolium,<br>3-[(4-amino-2-methyl-5-pyrimidinyl)methyl]-<br>5-(2-hydroxyethyl)-4-methyl- chloride,<br>monohydrochloride | -3.04   | No data available             |

12.4. Mobility in soil Is not likely mobile in the environment due its low water solubility.

12.5. Results of PBT and vPvB assessment Substance is not considered persistent, bioaccumulative and toxic (PBT) / very persistent and very bioaccumulative (vPvB).

12.6. Endocrine disrupting properties  
Endocrine Disruptor Information This product does not contain any known or suspected endocrine disruptors

# SAFETY DATA SHEET

Thiamine hydrochloride, USB Bioanalysed,

Revision Date 22-Mar-2024

12.7. Other adverse effects  
**Persistent Organic Pollutant**  
**Ozone Depletion Potential**

This product does not contain any known or suspected substance  
This product does not contain any known or suspected substance

## SECTION 13: DISPOSAL CONSIDERATIONS

### 13.1. Waste treatment methods

**Waste from Residues/Unused Products**

Waste is classified as hazardous. Dispose of in accordance with the European Directives on waste and hazardous waste. Dispose of in accordance with local regulations.

**Contaminated Packaging**

Dispose of this container to hazardous or special waste collection point.

**European Waste Catalogue (EWC)**

According to the European Waste Catalog, Waste Codes are not product specific, but application specific.

**Other Information**

Waste codes should be assigned by the user based on the application for which the product was used. Do not empty into drains.

## SECTION 14: TRANSPORT INFORMATION

IMDG/IMO

Not regulated

14.1. UN number

14.2. UN proper shipping name

14.3. Transport hazard class(es)

14.4. Packing group

ADR

Not regulated

14.1. UN number

14.2. UN proper shipping name

14.3. Transport hazard class(es)

14.4. Packing group

IATA

Not regulated

14.1. UN number

14.2. UN proper shipping name

14.3. Transport hazard class(es)

14.4. Packing group

14.5. Environmental hazards

No hazards identified

14.6. Special precautions for user

No special precautions required.

14.7. Maritime transport in bulk according to IMO instruments

Not applicable, packaged goods

## SECTION 15: REGULATORY INFORMATION

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

# SAFETY DATA SHEET

Thiamine hydrochloride, USB Bioanalysed,

Revision Date 22-Mar-2024

## International Inventories

Europe (EINECS/ELINCS/NLP), China (IECSC), Taiwan (TCSI), Korea (KECL), Japan (ENCS), Japan (ISHL), Canada (DSL/NDSL), Australia (AICS), New Zealand (NZIoC), Philippines (PICCS). US EPA (TSCA) - Toxic Substances Control Act, (40 CFR Part 710)

## Regulation (EC) No 649/2012 of the European Parliament and of the Council of 4 July 2012 concerning the export and import of dangerous chemicals

Not applicable

## Contains component(s) that meet a 'definition' of per & poly fluoroalkyl substance (PFAS)?

Not applicable

Take note of Directive 98/24/EC on the protection of the health and safety of workers from the risks related to chemical agents at work .

## National Regulations

UK - Take note of Control of Substances Hazardous to Health Regulations (COSHH) 2002 and 2005 Amendment

## WGK Classification

See table for values
