

## SAFETY DATA SHEET

Creation Date 12-Nov-2014

Revision Date 12-Nov-2014

Revision Number 1

### 1. Identification

**Product Name** Wright Stain

**Cat No. :** 23264980

**Synonyms** No information available

**Recommended Use** Laboratory chemicals.

**Uses advised against** No Information available

**Details of the supplier of the safety data sheet**

|                                          |                                   |
|------------------------------------------|-----------------------------------|

| Kalamazoo, MI 49008                      |                                   |
| Tel: (800) 522-7270                      |                                   |

### 2. Hazard(s) identification

#### Classification

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

|                                                            |            |
|------------------------------------------------------------|------------|
| Flammable liquids                                          | Category 2 |
| Acute oral toxicity                                        | Category 3 |
| Acute dermal toxicity                                      | Category 3 |
| Acute Inhalation Toxicity - Vapors                         | Category 3 |
| Specific target organ toxicity (single exposure)           | Category 1 |
| Target Organs - Optic nerve, Central nervous system (CNS). |            |
| Specific target organ toxicity - (repeated exposure)       | Category 1 |
| Target Organs - Kidney, Liver, spleen, Blood.              |            |

#### Label Elements

##### **Signal Word**

Danger

##### **Hazard Statements**

Highly flammable liquid and vapor

Toxic if swallowed

Toxic in contact with skin

Toxic if inhaled

May cause drowsiness or dizziness

Causes damage to organs

Causes damage to organs through prolonged or repeated exposure

**Precautionary Statements****Prevention**

Wash face, hands and any exposed skin thoroughly after handling  
Do not eat, drink or smoke when using this product  
Wear protective gloves/protective clothing/eye protection/face protection  
Use only outdoors or in a well-ventilated area  
Do not breathe dust/fume/gas/mist/vapors/spray  
Keep away from heat/sparks/open flames/hot surfaces. - No smoking  
Keep container tightly closed  
Ground/bond container and receiving equipment  
Use explosion-proof electrical/ventilating/lighting/equipment  
Use only non-sparking tools  
Take precautionary measures against static discharge  
Keep cool

**Response**

IF exposed: Call a POISON CENTER or doctor/physician

**Inhalation**

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing  
Call a POISON CENTER or doctor/physician

**Skin**

Call a POISON CENTER or doctor/physician if you feel unwell  
Wash contaminated clothing before reuse  
IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower

**Ingestion**

IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician  
Rinse mouth

**Fire**

In case of fire: Use CO<sub>2</sub>, dry chemical, or foam for extinction

**Storage**

Store locked up  
Store in a well-ventilated place. Keep container tightly closed

**Disposal**

Dispose of contents/container to an approved waste disposal plant

**Hazards not otherwise classified (HNOC)****Other hazards**

Poison, may be fatal or cause blindness if swallowed. Vapor harmful. Cannot be made non-poisonous. WARNING! This product contains a chemical known in the State of California to cause birth defects or other reproductive harm.

### 3. Composition / information on ingredients

| Component                           | CAS-No     | Weight % |
|-------------------------------------|------------|----------|
| Methyl alcohol                      | 67-56-1    | > 99     |
| Ethanamine, N-ethyl-, hydrochloride | 660-68-4   | < 1      |
| Stains, biological, Wright's        | 68988-92-1 | < 1      |

### 4. First-aid measures

**Eye Contact**

Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes.  
Immediate medical attention is required.

|                                        |                                                                                                                                                                                                                                                           |
|----------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Skin Contact</b>                    | Wash off immediately with plenty of water for at least 15 minutes. Immediate medical attention is required.                                                                                                                                               |
| <b>Inhalation</b>                      | Move to fresh air. If breathing is difficult, give oxygen. Do not use mouth-to-mouth resuscitation if victim ingested or inhaled the substance; induce artificial respiration with a respiratory medical device. Immediate medical attention is required. |
| <b>Ingestion</b>                       | Call a physician or Poison Control Center immediately. Do not induce vomiting.                                                                                                                                                                            |
| <b>Most important symptoms/effects</b> | Breathing difficulties. Inhalation of high vapor concentrations may cause symptoms like headache, dizziness, tiredness, nausea and vomiting                                                                                                               |
| <b>Notes to Physician</b>              | Treat symptomatically                                                                                                                                                                                                                                     |

## 5. Fire-fighting measures

|                                         |                                                                                                                |
|-----------------------------------------|----------------------------------------------------------------------------------------------------------------|
| <b>Suitable Extinguishing Media</b>     | CO <sub>2</sub> , dry chemical, dry sand, alcohol-resistant foam. Use water spray to cool unopened containers. |
| <b>Unsuitable Extinguishing Media</b>   | Water may be ineffective                                                                                       |
| <b>Flash Point</b>                      | 12 °C / 53.6 °F                                                                                                |
| <b>Method -</b>                         | No information available                                                                                       |
| <b>Autoignition Temperature</b>         | No information available                                                                                       |
| <b>Explosion Limits</b>                 |                                                                                                                |
| <b>Upper</b>                            | No data available                                                                                              |
| <b>Lower</b>                            | No data available                                                                                              |
| <b>Sensitivity to Mechanical Impact</b> | No information available                                                                                       |
| <b>Sensitivity to Static Discharge</b>  | No information available                                                                                       |

### Specific Hazards Arising from the Chemical

Flammable. Risk of ignition. Vapors may form explosive mixtures with air. Vapors may travel to source of ignition and flash back. Containers may explode when heated.

### Hazardous Combustion Products

Carbon monoxide (CO) Formaldehyde

### Protective Equipment and Precautions for Firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Thermal decomposition can lead to release of irritating gases and vapors.

### NFPA

**Health**  
3

**Flammability**  
3

**Instability**  
0

**Physical hazards**  
N/A

## 6. Accidental release measures

|                                             |                                                                                                                                                                                 |
|---------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Personal Precautions</b>                 | Use personal protective equipment. Remove all sources of ignition. Take precautionary measures against static discharges. Do not get in eyes, on skin, or on clothing.          |
| <b>Environmental Precautions</b>            | Should not be released into the environment. See Section 12 for additional ecological information. Do not flush into surface water or sanitary sewer system.                    |
| <b>Methods for Containment and Clean Up</b> | Remove all sources of ignition. Soak up with inert absorbent material. Take precautionary measures against static discharges. Keep in suitable, closed containers for disposal. |

## 7. Handling and storage

|                 |                                                                                                                                                                                                                                                                                |
|-----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Handling</b> | Use only under a chemical fume hood. Use explosion-proof equipment. Keep away from open flames, hot surfaces and sources of ignition. Take precautionary measures against static discharges. Do not breathe vapors or spray mist. Do not get in eyes, on skin, or on clothing. |
|-----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

**Storage**

Keep containers tightly closed in a dry, cool and well-ventilated place. Keep away from heat and sources of ignition. Flammables area.

## 8. Exposure controls / personal protection

**Exposure Guidelines**

| Component      | ACGIH TLV                             | OSHA PEL                                                                                                                                                                                 | NIOSH IDLH                                                                                                   |

Legend

ACGIH - American Conference of Governmental Industrial Hygienists

OSHA - Occupational Safety and Health Administration

NIOSH IDLH: The National Institute for Occupational Safety and Health Immediately Dangerous to Life or Health

**Engineering Measures**

Use only under a chemical fume hood. Use explosion-proof electrical/ventilating/lighting/equipment. Ensure that eyewash stations and safety showers are close to the workstation location.

**Personal Protective Equipment****Eye/face Protection**

Wear appropriate protective eyeglasses or chemical safety goggles as described by OSHA's eye and face protection regulations in 29 CFR 1910.133 or European Standard EN166.

**Skin and body protection**

Wear appropriate protective gloves and clothing to prevent skin exposure.

**Respiratory Protection**

Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced.

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice.

## 9. Physical and chemical properties

|                                  |                             |
|----------------------------------|-----------------------------|
| Physical State                   | Liquid                      |
| Appearance                       | Dark Purple                 |
| Odor                             | Characteristic Alcohol-like |
| Odor Threshold                   | No information available    |
| pH                               | No information available    |
| Melting Point/Range              | No data available           |
| Boiling Point/Range              | 65 °C / 149 °F              |
| Flash Point                      | 12 °C / 53.6 °F             |
| Evaporation Rate                 | No information available    |
| Flammability (solid,gas)         | No information available    |
| Flammability or explosive limits |                             |
| Upper                            | No data available           |

| Relative Density                       | No information available |
| Solubility                             | No information available |
| Partition coefficient; n-octanol/water | No data available        |
| Autoignition Temperature               | No information available |
| Decomposition Temperature              | No information available |
| Viscosity                              | No information available |

## 10. Stability and reactivity

|                                         |                                                                                                         |
|-----------------------------------------|---------------------------------------------------------------------------------------------------------|
| <b>Reactive Hazard</b>                  | None known, based on information available                                                              |
| <b>Stability</b>                        | Stable under normal conditions.                                                                         |
| <b>Conditions to Avoid</b>              | Incompatible products. Heat, flames and sparks.                                                         |
| <b>Incompatible Materials</b>           | Strong oxidizing agents, Strong acids, Strong bases, Acid anhydrides, Acid chlorides, Metals, Peroxides |
| <b>Hazardous Decomposition Products</b> | Carbon monoxide (CO), Formaldehyde                                                                      |
| <b>Hazardous Polymerization</b>         | Hazardous polymerization does not occur.                                                                |
| <b>Hazardous Reactions</b>              | None under normal processing.                                                                           |

## 11. Toxicological information

### Acute Toxicity

**Product Information** No acute toxicity information is available for this product

### **Component Information**

| Component                           | LD50 Oral          | LD50 Dermal            | LC50 Inhalation                                |
|-------------------------------------|--------------------|------------------------|------------------------------------------------|
| Methyl alcohol                      | 6200 mg/kg ( Rat ) | 15800 mg/kg ( Rabbit ) | 64000 ppm ( Rat ) 4 h<br>22500 ppm ( Rat ) 8 h |
| Ethanamine, N-ethyl-, hydrochloride | 9900 mg/kg ( Rat ) | Not listed             | Not listed                                     |

**Toxicologically Synergistic Products** No information available

### Delayed and immediate effects as well as chronic effects from short and long-term exposure

|                        |                                                                                          |
|------------------------|------------------------------------------------------------------------------------------|
| <b>Irritation</b>      | Irritating to eyes and skin                                                              |
| <b>Sensitization</b>   | No information available                                                                 |
| <b>Carcinogenicity</b> | The table below indicates whether each agency has listed any ingredient as a carcinogen. |

| Component                           | CAS-No     | IARC       | NTP        | ACGIH      | OSHA       | Mexico     |
|-------------------------------------|------------|------------|------------|------------|------------|------------|
| Methyl alcohol                      | 67-56-1    | Not listed | Not listed | Not listed | Not listed | Not listed |
| Ethanamine, N-ethyl-, hydrochloride | 660-68-4   | Not listed | Not listed | Not listed | Not listed | Not listed |
| Stains, biological, Wright's        | 68988-92-1 | Not listed | Not listed | Not listed | Not listed | Not listed |

**Mutagenic Effects** Mutagenic effects have occurred in experimental animals.

**Reproductive Effects** Experiments have shown reproductive toxicity effects on laboratory animals.

**Developmental Effects** Developmental effects have occurred in experimental animals.

**Teratogenicity** Teratogenic effects have occurred in experimental animals.

**STOT - single exposure** Optic nerve Central nervous system (CNS)  
**STOT - repeated exposure** Kidney Liver spleen Blood

**Aspiration hazard** No information available

**Symptoms / effects, both acute and delayed** Inhalation of high vapor concentrations may cause symptoms like headache, dizziness, tiredness, nausea and vomiting

**Endocrine Disruptor Information** No information available

**Other Adverse Effects** See actual entry in RTECS for complete information.

## 12. Ecological information

### Ecotoxicity

| Component      | Freshwater Algae | Freshwater Fish                            | Microtox                                                                        | Water Flea            |
|----------------|------------------|--------------------------------------------|---------------------------------------------------------------------------------|-----------------------|
| Methyl alcohol | Not listed       | Pimephales promelas: LC50 > 10000 mg/L 96h | EC50 = 39000 mg/L 25 min<br>EC50 = 40000 mg/L 15 min<br>EC50 = 43000 mg/L 5 min | EC50 > 10000 mg/L 24h |

**Persistence and Degradability** No information available

**Bioaccumulation/ Accumulation** No information available.

### Mobility

| Component      | log Pow |
|----------------|---------|
| Methyl alcohol | -0.74   |

## 13. Disposal considerations

**Waste Disposal Methods** Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations to ensure complete and accurate classification.

| Component                | RCRA - U Series Wastes | RCRA - P Series Wastes |
|--------------------------|------------------------|------------------------|
| Methyl alcohol - 67-56-1 | U154                   | -                      |

## 14. Transport information

### DOT

UN-No UN1230  
 Proper Shipping Name METHANOL SOLUTION  
 Hazard Class 3  
 Packing Group II

### TDG

UN-No UN1230  
 Proper Shipping Name METHANOL SOLUTION  
 Hazard Class 3  
 Subsidiary Hazard Class 6.1  
 Packing Group II

### IATA

UN-No UN1230  
 Proper Shipping Name METHANOL SOLUTION  
 Hazard Class 3  
 Subsidiary Hazard Class 6.1  
 Packing Group II

### IMDG/IMO

UN-No UN1230  
 Proper Shipping Name METHANOL SOLUTION  
 Hazard Class 3  
 Subsidiary Hazard Class 6.1  
 Packing Group II

## 15. Regulatory information

All of the components in the product are on the following Inventory lists: Australia X = listed China Canada The product is classified and labeled according to EC directives or corresponding national laws The product is classified and labeled in accordance with Directive 1999/45/EC Europe TSCA Philippines

#### International Inventories

| Component                           | TSCA | DSL | NDSL | EINECS    | ELINCS | NLP | PICCS | ENCS | AICS | IECSC | KECL |
|-------------------------------------|------|-----|------|-----------|--------|-----|-------|------|------|-------|------|
| Methyl alcohol                      | X    | X   | -    | 200-659-6 | -      |     | X     | X    | X    | X     | X    |
| Ethanamine, N-ethyl-, hydrochloride | X    | X   | -    | 211-541-9 | -      |     | X     | X    | X    | X     | X    |
| Stains, biological, Wright's        | X    | X   | -    | 273-541-5 | -      |     | X     | -    | X    | X     | -    |

#### Legend:

X - Listed

E - Indicates a substance that is the subject of a Section 5(e) Consent order under TSCA.

F - Indicates a substance that is the subject of a Section 5(f) Rule under TSCA.

N - Indicates a polymeric substance containing no free-radical initiator in its inventory name but is considered to cover the designated polymer made with any free-radical initiator regardless of the amount used.

P - Indicates a commenced PMN substance

R - Indicates a substance that is the subject of a Section 6 risk management rule under TSCA.

S - Indicates a substance that is identified in a proposed or final Significant New Use Rule

T - Indicates a substance that is the subject of a Section 4 test rule under TSCA.

XU - Indicates a substance exempt from reporting under the Inventory Update Rule, i.e. Partial Updating of the TSCA Inventory Data Base Production and Site Reports (40 CFR 710(B)).

Y1 - Indicates an exempt polymer that has a number-average molecular weight of 1,000 or greater.

Y2 - Indicates an exempt polymer that is a polyester and is made only from reactants included in a specified list of low concern reactants that comprises one of the eligibility criteria for the exemption rule.

#### U.S. Federal Regulations

TSCA 12(b) Not applicable

#### SARA 313

| Component      | CAS-No  | Weight % | SARA 313 - Threshold Values % |
|----------------|---------|----------|-------------------------------|
| Methyl alcohol | 67-56-1 | > 99     | 1.0                           |

#### SARA 311/312 Hazardous Categorization

|                                   |     |
|-----------------------------------|-----|
| Acute Health Hazard               | Yes |
| Chronic Health Hazard             | Yes |
| Fire Hazard                       | Yes |
| Sudden Release of Pressure Hazard | No  |
| Reactive Hazard                   | No  |

Clean Water Act Not applicable

#### Clean Air Act

| Component      | HAPS Data | Class 1 Ozone Depletors | Class 2 Ozone Depletors |
|----------------|-----------|-------------------------|-------------------------|
| Methyl alcohol | X         |                         | -                       |

OSHA Occupational Safety and Health Administration  
Not applicable

#### CERCLA

This material, as supplied, contains one or more substances regulated as a hazardous substance under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302)

| Component      | Hazardous Substances RQs | CERCLA EHS RQs |
|----------------|--------------------------|----------------|
| Methyl alcohol | 5000 lb                  | -              |

California Proposition 65 This product does not contain any Proposition 65 chemicals

| Component | CAS-No | California Prop. 65 | Prop 65 NSRL | Category |
|-----------|--------|---------------------|--------------|----------|
|-----------|--------|---------------------|--------------|----------|

|                |         |               |   |               |
|----------------|---------|---------------|---|---------------|
| Methyl alcohol | 67-56-1 | Developmental | - | Developmental |
|----------------|---------|---------------|---|---------------|

**State Right-to-Know**

| Component      | Massachusetts | New Jersey | Pennsylvania | Illinois | Rhode Island |
|----------------|---------------|------------|--------------|----------|--------------|
| Methyl alcohol | X             | X          | X            | X        | X            |

**U.S. Department of Transportation**

Reportable Quantity (RQ): Y  
DOT Marine Pollutant N  
DOT Severe Marine Pollutant N

**U.S. Department of Homeland Security**

This product does not contain any DHS chemicals.

**Other International Regulations**

Mexico - Grade Serious risk, Grade 3

**Canada**

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the MSDS contains all the information required by the CPR

WHMIS Hazard Class B2 Flammable liquid  
D2A Very toxic materials  
D1A Very toxic materials
