Revision Date 28-Mar-2023  
Version 1

Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013

## SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

### Product Identifier

Perihalan Produk:

Product Description:

Cat No. :

LEGIONELLA BMPA Selective Supplement

LEGIONELLA BMPA Selective Supplement

SR0111

### Relevant identified uses of the substance or mixture and uses advised against

Recommended Use

Laboratory chemicals.

Uses advised against

No Information available

### Details of the supplier of the safety data sheet

#### Company

Thermo Scientific Microbiology Sdn Bhd  
No.6, Jalan TTC 6, Taman Teknologi Cheng,  
Cheng, 75250 Melaka, Malaysia  
+606 334 0975 .

#### Supplier

Oxoid Ltd.  
Wade Road  
Basingstoke, Hants, UK  
RG24 8PW  
Telephone: +44 (0) 1256 841144

#### E-mail address

mbd-sds@thermofisher.com

### Emergency Telephone Number

(603) 5122 8888  
CHEMTREC Malaysia **1-800-815-308** (Malay)  
CHEMTREC Malaysia (Kuala Lumpur) **+(60)-327884561** (Malay)

## SECTION 2: HAZARDS IDENTIFICATION

### Classification of the substance or mixture

Acute oral toxicity

Category 4 (H302)

### Label Elements

Signal Word

Warning

### Hazard Statements

H302 - Harmful if swallowed

# SAFETY DATA SHEET

LEGIONELLA BMPA Selective Supplement

Revision Date 28-Mar-2023

## Precautionary Statements

P301 + P312 - IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell  
P281 - Use personal protective equipment as required

## Other Hazards

This product does not contain any known or suspected endocrine disruptors

## SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

| Component           | CAS No     | Weight % |
|---------------------|------------|----------|
| Anisomycin          | 22862-76-6 | 7.2      |
| Polymyxin B sulfate | 1405-20-5  | 2.1      |
| Cefamandole Sodium  | 30034-03-8 | 0.7      |

## SECTION 4: FIRST AID MEASURES

### Description of first aid measures

|                                    |                                                                                                                                                  |
|------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|
| Eye Contact                        | Rinse thoroughly with plenty of water, also under the eyelids. Get medical attention.                                                            |
| Skin Contact                       | Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if symptoms occur.   |
| Ingestion                          | Clean mouth with water and drink afterwards plenty of water. Get medical attention.                                                              |
| Inhalation                         | Remove to fresh air. Get medical attention immediately if symptoms occur. Oxygen or artificial respiration if needed.                            |
| Self-Protection of the First Aider | Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination. |

### Most important symptoms and effects, both acute and delayed

No information available.

### Indication of any immediate medical attention and special treatment needed

Notes to Physician Treat symptomatically.

## SECTION 5: FIREFIGHTING MEASURES

### Extinguishing media

#### Suitable Extinguishing Media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

#### Extinguishing media which must not be used for safety reasons

No information available.

### Special hazards arising from the substance or mixture

Thermal decomposition can lead to release of irritating gases and vapors.

### Hazardous Combustion Products

# SAFETY DATA SHEET

LEGIONELLA BMPA Selective Supplement

Revision Date 28-Mar-2023

None under normal use conditions.

## **Advice for fire-fighters**

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

## **SECTION 6: ACCIDENTAL RELEASE MEASURES**

### **Personal Precautions, Protective Equipment and Emergency Procedures**

Do not get in eyes, on skin, or on clothing. Avoid dust formation. Ensure adequate ventilation. Use personal protective equipment as required.

### **Environmental precautions**

Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. Do not flush into surface water or sanitary sewer system.

### **Methods and Material for Containment and Cleaning Up**

Sweep up and shovel into suitable containers for disposal. Clean contaminated surface thoroughly. Avoid dust formation.

### **Reference to Other Sections**

Refer to protective measures listed in Sections 8 and 13.

## **SECTION 7: HANDLING AND STORAGE**

### **Precautions for Safe Handling**

Do not get in eyes, on skin, or on clothing. Do not breathe dust. Ensure adequate ventilation.

### **Conditions for Safe Storage, Including any Incompatibilities**

Keep only in the original container. Keep at temperatures between 2° and 8 °C.

### **Specific End Uses**

Use in laboratories.

## **SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION**

### **Control Parameters**

### **Exposure Controls**

#### **Engineering Measures**

Ensure adequate ventilation, especially in confined areas.

Wherever possible, engineering control measures such as the isolation or enclosure of the process, the introduction of process or equipment changes to minimise release or contact, and the use of properly designed ventilation systems, should be adopted to control hazardous materials at source

#### **Personal protective equipment**

##### **Eye Protection**

Wear safety glasses with side shields (or goggles)

##### **Hand Protection**

Protective gloves

# SAFETY DATA SHEET

LEGIONELLA BMPA Selective Supplement

Revision Date 28-Mar-2023

**Skin and body protection** Long sleeved clothing

Inspect gloves before use.

Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves.  
(Refer to manufacturer/supplier for information)

Ensure gloves are suitable for the task: Chemical compatability, Dexterity, Operational conditions, User susceptibility, e.g. sensitisation effects, also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion.

Remove gloves with care avoiding skin contamination.

**Respiratory Protection** When workers are facing concentrations above the exposure limit they must use appropriate certified respirators  
To protect the wearer, respiratory protective equipment must be the correct fit and be used and maintained properly  
When RPE is used a face piece Fit Test should be conducted

**Hygiene Measures** Handle in accordance with good industrial hygiene and safety practice

**Environmental exposure controls** No information available

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

### Information on basic physical and chemical properties

|                                                |                           |                                          |
|------------------------------------------------|---------------------------|------------------------------------------|
| <b>Appearance</b>                              | Off-white                 |                                          |
| <b>Physical State</b>                          | Lyophilized Pellets Solid |                                          |
| <b>Odor</b>                                    | No information available  |                                          |
| <b>Odor Threshold</b>                          | No data available         |                                          |
| <b>pH</b>                                      | Not applicable            |                                          |
| <b>Melting Point/Range</b>                     | No data available         |                                          |
| <b>Softening Point</b>                         | No data available         |                                          |
| <b>Boiling Point/Range</b>                     | Not applicable            |                                          |
| <b>Flash Point</b>                             | Not applicable            | <b>Method -</b> No information available |
| <b>Evaporation Rate</b>                        | Not applicable            | Solid                                    |
| <b>Flammability (solid,gas)</b>                | No information available  |                                          |
| <b>Explosion Limits</b>                        | No data available         |                                          |
| <b>Vapor Pressure</b>                          | No data available         |                                          |
| <b>Vapor Density</b>                           | Not applicable            | Solid                                    |
| <b>Specific Gravity / Density</b>              | No data available         |                                          |
| <b>Bulk Density</b>                            | No data available         |                                          |
| <b>Water Solubility</b>                        | Soluble in water          |                                          |
| <b>Solubility in other solvents</b>            | No information available  |                                          |
| <b>Partition Coefficient (n-octanol/water)</b> |                           |                                          |
| <b>Autoignition Temperature</b>                | No data available         |                                          |
| <b>Decomposition Temperature</b>               | No data available         |                                          |
| <b>Viscosity</b>                               | Not applicable            | Solid                                    |
| <b>Explosive Properties</b>                    | No information available  |                                          |

# SAFETY DATA SHEET

LEGIONELLA BMPA Selective Supplement

Revision Date 28-Mar-2023

**Oxidizing Properties** No information available

## SECTION 10: STABILITY AND REACTIVITY

### Reactivity

None known, based on information available.

### Chemical Stability

Stable under recommended storage conditions.

### Possibility of Hazardous Reactions

#### **Hazardous Polymerization Hazardous Reactions**

Hazardous polymerization does not occur.  
None under normal processing.

### Conditions to Avoid

None known.

### Incompatible Materials

None known.

### Hazardous Decomposition Products

None under normal use conditions.

## SECTION 11: TOXICOLOGICAL INFORMATION

### Information on Toxicological Effects

#### Acute Toxicity

#### Toxicology data for the components

| Component           | LD50 Oral                  | LD50 Dermal | LC50 Inhalation |
|---------------------|----------------------------|-------------|-----------------|
| Anisomycin          | LD50 = 72 mg/kg ( Rat )    |             |                 |
| Polymyxin B sulfate | 790 mg/kg (Mouse)          |             |                 |
| Cefamandole Sodium  | LD50 > 16600 mg/kg ( Rat ) |             |                 |

#### Chronic Toxicity **Carcinogenicity**

There are no known carcinogenic chemicals in this product

#### **Sensitization** **Mutagenic Effects**

As a precaution the product should be treated as a sensitizer  
No information available

# SAFETY DATA SHEET

LEGIONELLA BMPA Selective Supplement

Revision Date 28-Mar-2023

|                       |                           |
|-----------------------|---------------------------|
| Reproductive Effects  | No information available  |
| Developmental Effects | No information available  |
| Target Organs         | No information available. |

## SECTION 12: ECOLOGICAL INFORMATION

|                                                     |                                                                                                                                                              |
|-----------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <u>Ecotoxicity effects</u>                          | Contains no substances known to be hazardous to the environment or that are not degradable in waste water treatment plants.                                  |
| <u>Persistence and degradability</u><br>Persistence | Soluble in water, Persistence is unlikely, based on information available.                                                                                   |
| <u>Bioaccumulative potential</u>                    | Bioaccumulation is unlikely                                                                                                                                  |
| <u>Mobility in soil</u>                             | The product is water soluble, and may spread in water systems. Will likely be mobile in the environment due to its water solubility. Highly mobile in soils. |
| <u>Other adverse effects</u>                        | No information available                                                                                                                                     |

## SECTION 13: DISPOSAL CONSIDERATIONS

|                                                                       |                                                                                                                                                                                                                                        |
|-----------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <u>Waste treatment methods</u><br>Waste from Residues/Unused Products | Dispose of in accordance with federal, state and local regulations Waste is classified as hazardous Dispose of in accordance with the European Directives on waste and hazardous waste Dispose of in accordance with local regulations |
| Contaminated Packaging                                                | Dispose of this container to hazardous or special waste collection point.                                                                                                                                                              |
| Other Information                                                     | Waste codes should be assigned by the user based on the application for which the product was used Do not empty into drains                                                                                                            |

## SECTION 14: TRANSPORT INFORMATION

|                                |                                 |
|--------------------------------|---------------------------------|
