

Australian statement of hazardous nature : Classified as hazardous according to criteria of Safe Work Australia

## Section 1 - Identification

|                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|---------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Name</b> | <b><u>Hydroscout Oil/Soil Reagents</u></b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| <b>CAS No</b>       | 7789-78-8                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Synonyms</b>     | The HYDROSCOUT product line is an On-Site test kit for quantifying water in used oil and other hydrocarbon matrices. The HYDROSCOUT Oil Reagents consists of a test tube containing a glass ampule which contains a calcium hydride solution in a light aromatic solvent, a glass ampule containing a green-colored water/propylene glycol mixture and a polypropylene sampling syringe. The HYDROSCOUT Dilution Kit Reagents consist of a black-screw cap vial for measuring high water levels (>20%) in oils. The HYDROSCOUT Soil Reagents consist of break-top ampule containing reagent alcohol and 50-ml sample tube. |

|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Recommended Use</b>      | Laboratory chemicals.                                                                                                                                                                                                                                                                                                                 |
| <b>Uses advised against</b> | This product does not contain any substance(s) on the Illicit Drug Precursors/Reagents list. This product does not contain any substance(s) subject to Prohibition, Authorization or Restriction. This product does not contain any substance(s) listed on the voluntary National Code of Practice for Chemicals of Security Concern. |

## Section 2 - Hazard(s) Identification

### Classification under Safe Work Australia

Classified as hazardous according to criteria of Safe Work Australia

#### Physical hazards

Substances/mixtures which, in contact with water, emit flammable gases Category 1

#### Health hazards

|                        |             |
|------------------------|-------------|
| Aspiration Toxicity    | Category 1  |
| Germ Cell Mutagenicity | Category 1B |
| Carcinogenicity        | Category 1B |

#### Environmental hazards

No hazards identified

#### Label Elements

Flame

Health Hazard

**Signal Word****Danger****Hazard Statements**

H260 - In contact with water releases flammable gases which may ignite spontaneously

H304 - May be fatal if swallowed and enters airways

H340 - May cause genetic defects

H350 - May cause cancer

**Precautionary Statements**

P201 - Obtain special instructions before use

P202 - Do not handle until all safety precautions have been read and understood

P223 - Do not allow contact with water

P231 + P232 - Handle and store contents under inert gas. Protect from moisture

P280 - Wear protective gloves/protective clothing/eye protection/face protection

P301 + P310 - IF SWALLOWED: Immediately call a POISON CENTER or doctor

P308 + P313 - IF exposed or concerned: Get medical advice/attention

P331 - Do NOT induce vomiting

P370 + P378 - In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish

P302 + P335 + P334 - IF ON SKIN: Brush off loose particles from skin. Immerse in cool water

P402 + P404 - Store in a dry place. Store in a closed container

P501 - Dispose of contents/ container to an approved waste disposal plant

**Other information**

This product does not contain any known or suspected endocrine disruptors

**Section 3 - Composition and Information on Ingredients**

| Component                           | CAS No     | Weight % |
|-------------------------------------|------------|----------|
| Petroleum naphtha, light aromatic   | 64742-95-6 | 64       |
| Calcium hydride (CaH <sub>2</sub> ) | 7789-78-8  | 5.25     |

**Section 4 - First Aid Measures****Inhalation**

Remove from exposure, lie down. Remove to fresh air. If not breathing, give artificial respiration. Immediate medical attention is required. Risk of serious damage to the lungs (by aspiration).

**Ingestion**

Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Drink plenty of water. Call a physician immediately. Call a physician or poison control center immediately. If vomiting occurs naturally, have victim lean forward.

**Skin Contact**

Wash off immediately with plenty of water for at least 15 minutes. Immediate medical attention is required. Destroy contaminated shoes.

**Eye Contact**

Immediate medical attention is required. Rinse immediately with plenty of water, also under

|                                            |                                                                                                                                                  |
|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | the eyelids, for at least 15 minutes.                                                                                                            |
| <b>Self-Protection of the First Aider</b>  | Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination. |
| <b>First Aid Facilities</b>                | Eyewash, safety shower and washroom.                                                                                                             |
| <b>Most important symptoms and effects</b> | No information available.                                                                                                                        |
| <b>Notes to Physician</b>                  | Treat symptomatically.                                                                                                                           |

## Section 5 - Fire Fighting Measures

### Suitable Extinguishing Media

Flooding quantities of water. Dry chemical, soda ash, lime or sand.

### Extinguishing media which must not be used for safety reasons

Water.

### Hazardous Decomposition Products

Hydrogen.

### Specific Hazards Arising from the Chemical

Water reactive. Produce flammable gases on contact with water.

### Special protective equipment and precautions for fire fighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

## Section 6 - Accidental Release Measures

### Emergency procedures

Use personal protective equipment as required. Ensure adequate ventilation.

### Environmental Precautions

Do not flush into surface water or sanitary sewer system.

### Methods for Containment and Clean Up

#### Clean-up methods - small spillage

Remove all sources of ignition. Use spark-proof tools and explosion-proof equipment. Sweep up and shovel into suitable containers for disposal. Do not let this chemical enter the environment. Do not expose spill to water.

#### Clean-up methods - large spillage

Typically only supplied in small quantities as packaged goods.

If extremely toxic or used in larger quantities ensure a spillage action plan is in place. Evacuate area. Control the source and/or contain the spill if safe and able to do so. Use temporary diking, sand bags, dry sand, earth or proprietary booms/absorbent pads if available. Obtain advice on containment, neutralisation and clean-up from local emergency responders.

### Reference to Other Sections

Refer to protective measures listed in Sections 8 and 13.

## Section 7 - Handling and Storage

### Precautions for Safe Handling

Handle product only in closed system or provide appropriate exhaust ventilation. Avoid contact with skin and eyes. Minimize dust

generation and accumulation. Do not allow contact with water.

**Conditions for Safe Storage, Including any Incompatibilities**

Keep in a dry, cool and well-ventilated place. Keep container tightly closed. Keep away from heat, sparks and flame. Keep from any possible contact with water. Keep under nitrogen.

AS/NZS 2243.10:2004, Safety in laboratories - Storage of chemicals

## Section 8 - Exposure Controls and Personal Protection

**Exposure limits**

The product does not contain any hazardous materials with occupational exposure limits established.

**Biological limit values**

This product, as supplied, does not contain any hazardous materials with biological limits established by the region specific regulatory bodies

**Exposure Controls****Engineering Measures**

Ensure adequate ventilation, especially in confined areas. Ensure that eyewash stations and safety showers are close to the workstation location.

Wherever possible, engineering control measures such as the isolation or enclosure of the process, the introduction of process or equipment changes to minimise release or contact, and the use of properly designed ventilation systems, should be adopted to control hazardous materials at source

**Personal protective equipment****Eye Protection**

Goggles (Australian/New Zealand Standard AS/NZS 1337 - Eye protectors for Industrial applications)

**Hand Protection**

Protective gloves

| Glove material | Breakthrough time | Glove thickness | AUS/NZ Standard | Glove comments        |
|----------------|-------------------|-----------------|-----------------|-----------------------|
| Natural rubber | See manufacturers | -               | AS/NZS 2161     | (minimum requirement) |
| Nitrile rubber | recommendations   |                 |                 |                       |
| Neoprene       |                   |                 |                 |                       |
| PVC            |                   |                 |                 |                       |

Inspect gloves before use.

Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. (Refer to manufacturer/supplier for information)

Ensure gloves are suitable for the task: Chemical compatibility, Dexterity, Operational conditions, User susceptibility, e.g. sensitisation effects, also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion.

Remove gloves with care avoiding skin contamination.

**Skin and body protection**

Wear appropriate protective gloves and clothing to prevent skin exposure

**Respiratory Protection**

Use an AS/NZS 1716 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced. To protect the wearer, respiratory protective equipment must be the correct fit and be used and maintained in line with AS/NZS 1715 on the use and maintenance of respiratory protective devices

**Recommended Filter type:  
Recommended half mask:-**

Particulates filter conforming to EN 143 (or AUS/NZ equivalent)  
Particle filtering: EN149:2001 (or AUS/NZ equivalent)  
When RPE is used a face piece Fit Test should be conducted

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice.

**Environmental exposure controls**

Prevent product from entering drains. Do not allow material to contaminate ground water system.

## Section 9 - Physical and Chemical Properties

### Information on basic physical and chemical properties

|                                         |                                      |                                          |

## Section 10 - Stability and Reactivity

|                                  |                                                                                                                                                           |
|----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity                       | Yes                                                                                                                                                       |
| Stability                        | Stable under normal conditions. Water reactive.                                                                                                           |
| Conditions to Avoid              | Keep away from open flames, hot surfaces and sources of ignition, Protect from water, Excess heat, Incompatible products, Exposure to moist air or water. |
| Incompatible Materials           | Acids, Water, Strong acids, Alcohols, Halogens, Acid anhydrides, Reducing Agent.                                                                          |
| Hazardous Decomposition Products | Hydrogen.                                                                                                                                                 |
| Hazardous Polymerization         | Hazardous polymerization does not occur.                                                                                                                  |

## Section 11 - Toxicological Information

### Information on Toxicological Effects

|                     |                                                             |
|---------------------|-------------------------------------------------------------|
| Product Information | No acute toxicity information is available for this product |
|---------------------|-------------------------------------------------------------|

**(a) acute toxicity;****Oral**

Based on available data, the classification criteria are not met

**Dermal**

Based on available data, the classification criteria are not met

**Inhalation**

Based on available data, the classification criteria are not met

| Component                           | LD50 Oral                 | LD50 Dermal                  | LC50 Inhalation             |
|-------------------------------------|---------------------------|------------------------------|-----------------------------|
| Petroleum naphtha, light aromatic   | LD50 = 8400 mg/kg ( Rat ) | LD50 > 2000 mg/kg ( Rabbit ) | LC50 = 3400 ppm ( Rat ) 4 h |
| Calcium hydride (CaH <sub>2</sub> ) | >2000 mg/kg (Rat)         |                              |                             |

**(b) skin corrosion/irritation;**

No data available

**(c) serious eye damage/irritation;**

No data available

**(d) respiratory or skin sensitization;****Respiratory**

No data available

**Skin**

No data available

**(e) germ cell mutagenicity;**

Category 1B

**(f) carcinogenicity;**

Category 1B

The table below indicates whether each agency has listed any ingredient as a carcinogen

| Component                         | Australia | New Zealand | New South Wales | Western Australia | IARC | EU           | UK | Germany |
|-----------------------------------|-----------|-------------|-----------------|-------------------|------|--------------|----|---------|
| Petroleum naphtha, light aromatic |           |             |                 |                   |      | Carc Cat. 1B |    |         |

**(g) reproductive toxicity;**

No data available

**(h) STOT-single exposure;**

No data available

**(i) STOT-repeated exposure;**

No data available

**Target Organs**

No information available.

**(j) aspiration hazard;**

Category 1

**Symptoms / effects, both acute and delayed** No information available

## Section 12 - Ecological Information

**Ecotoxicity effects**

The product contains following substances which are hazardous for the environment. Contains a substance which is: Toxic to aquatic organisms. Reacts with water so no ecotoxicity data for the substance is available.

| Component                         | Freshwater Fish                              | Water Flea                             | Freshwater Algae | Microtox |
|-----------------------------------|----------------------------------------------|----------------------------------------|------------------|----------|
| Petroleum naphtha, light aromatic | LC50: = 9.22 mg/L, 96h (Oncorhynchus mykiss) | EC50: = 6.14 mg/L, 48h (Daphnia magna) |                  |          |

**Persistence and Degradability****Persistence**

Persistence is unlikely, based on information available.

**Degradability**

Not relevant for inorganic substances, Reacts with water.

**Degradation in sewage treatment plant**

Contains substances known to be hazardous to the environment or not degradable in waste water treatment plants. Water reactive.

**Bioaccumulative Potential**

Product does not bioaccumulate due to reaction with water

**Mobility**

Reacts with water. Is not likely mobile in the environment

**Endocrine Disruptor Information**

This product does not contain any known or suspected endocrine disruptors

Persistent Organic Pollutant  
Ozone Depletion Potential

This product does not contain any known or suspected substance  
This product does not contain any known or suspected substance

## Section 13 - Disposal Considerations

Waste from Residues/Unused Products

Do not allow into drains or watercourses or dispose of where ground or surface waters may be affected. Wastes, including emptied containers, are controlled wastes and should be disposed of in accordance with all federal, E.P.A., state and local regulations. Assure conformity with all applicable regulations.

Contaminated Packaging

Dispose of this container to hazardous or special waste collection point. Empty containers retain product residue, (liquid and/or vapor), and can be dangerous. Keep product and empty container away from heat and sources of ignition.

Other Information

Chemical wastes should be disposed through a licensed commercial waste collection service. Do not flush to sewer. Waste codes should be assigned by the user based on the application for which the product was used. Can be landfilled or incinerated, when in compliance with local regulations.

## Section 14 - Transport Information

### IMDG/IMO

UN-No UN1404  
Proper Shipping Name CALCIUM HYDRIDE  
Technical Shipping Name Hydroscout Oil/Soil Reagents  
Hazard Class 4.3  
Packing Group I

### ADG

UN-No UN1404  
Proper Shipping Name CALCIUM HYDRIDE  
Technical Shipping Name Hydroscout Oil/Soil Reagents  
Hazard Class 4.3  
Packing Group I

| Component                                                 | Hazchem Code |
|-----------------------------------------------------------|--------------|
| Calcium hydride (CaH <sub>2</sub> )<br>7789-78-8 ( 5.25 ) | 4W           |

### IATA

UN-No UN1404  
Proper Shipping Name CALCIUM HYDRIDE  
Technical Shipping Name Hydroscout Oil/Soil Reagents  
Hazard Class 4.3  
Packing Group I

Environmental hazards

No hazards identified

Special Precautions

No special precautions required

Additional information

None known

## Section 15 - Regulatory Information

Safety, health and environmental regulations/legislation specific for the substance or mixture

**National Regulations****Australia**

See section 8 for national exposure control parameters.

**Standard for the Uniform Scheduling of Medicines and Poisons**

No poison schedule number allocated.

**Australian Industrial Chemicals Introduction Scheme (AICIS)**

| Component                                       | Australian Industrial Chemicals Introduction Scheme (AICIS) | Additional information |
|-------------------------------------------------|-------------------------------------------------------------|------------------------|
| Petroleum naphtha, light aromatic - 64742-95-6  | Present                                                     | -                      |
| Calcium hydride (CaH <sub>2</sub> ) - 7789-78-8 | Present                                                     | -                      |

**Australian - Illicit Drug Precursors/Reagents Substance List**

This product does not contain any substance(s) on the Illicit Drug Precursors/Reagents list.

**Chemicals of Security Concern**

This product does not contain any substance(s) listed on the voluntary National Code of Practice for Chemicals of Security Concern

**National pollutant inventory**

Not applicable

**Prohibition or notification/licensing requirements**

Shown below are details of specific prohibition/notifications or licencing requirements when they apply.

This product does not contain any substance(s) subject to Prohibition, Authorization or Restriction.

**International Inventories**

**Key literature references and sources for data**

<https://echa.europa.eu/information-on-chemicals>  
Suppliers safety data sheet, Chemadvisor - LOLI, Merck index, RTECS

**Training Advice**

Chemical hazard awareness training, incorporating labelling, Safety Data Sheets (SDS), Personal Protective Equipment (PPE) and hygiene.

Use of personal protective equipment, covering appropriate selection, compatibility, breakthrough thresholds, care, maintenance, fit and standards.

First aid for chemical exposure, including the use of eye wash and safety showers.
