## SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

### 1.1. Product identifier

|                                  |                                             |
|----------------------------------|---------------------------------------------|
| <b>Product Description:</b>      | <b><u>Sodium salicylate</u></b>             |
| <b>Cat No. :</b>                 | <b>A17056</b>                               |
| <b>Synonyms</b>                  | Sodium salicylate; Sodium 2-hydroxybenzoate |
| <b>CAS-No</b>                    | 54-21-7                                     |
| <b>EC-No.</b>                    | 200-198-0                                   |
| <b>Molecular formula</b>         | C7 H5 Na O3                                 |
| <b>REACH Registration Number</b> | -                                           |

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

|                             |                          |
|-----------------------------|--------------------------|
| <b>Recommended use</b>      | Laboratory chemicals.    |
| <b>Uses advised against</b> | No information available |

### 1.3. Details of the supplier of the safety data sheet

|                |                                                                                                                                                                                                              |
|----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Company</b> | Avocado Research Chemicals Ltd.<br>(Part of Thermo Fisher Scientific)<br>Shore Road, Heysham<br>Lancashire, LA3 2XY,<br>United Kingdom<br>Office Tel: +44 (0) 1524 850506<br>Office Fax: +44 (0) 1524 850608 |

CHEMTREC Phone Number, Europe: 001-703-527-3887

## SECTION 2: HAZARDS IDENTIFICATION

### 2.1. Classification of the substance or mixture

GHS Classification

Physical hazards

# SAFETY DATA SHEET

Sodium salicylate

Revision Date 12-Feb-2025

Based on available data, the classification criteria are not met

## Health hazards

Acute oral toxicity  
Serious eye damage/eye irritation  
Reproductive toxicity

Category 4 (H302)  
Category 2 (H319)  
Category 2 (H361)

## Environmental hazards

Based on available data, the classification criteria are not met

Full text of Hazard Statements: see section 16

## 2.2. Label elements

Signal word

Warning

## Hazard statements

H302 - Harmful if swallowed  
H319 - Causes serious eye irritation  
H361 - Suspected of damaging fertility or the unborn child

## Precautionary statements

P280 - Wear protective gloves/protective clothing/eye protection/face protection  
P301 + P330 + P331 - IF SWALLOWED: rinse mouth. Do NOT induce vomiting  
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing  
P312 - Call a POISON CENTER or doctor if you feel unwell

## 2.3. Other hazards

Substance is not considered persistent, bioaccumulative and toxic (PBT) / very persistent and very bioaccumulative (vPvB)

Toxic to terrestrial vertebrates

This product does not contain any known or suspected endocrine disruptors

## SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

### 3.1. Substances

| Component         | CAS-No  | EC-No.            | Weight percent | GHS Classification                                          |
|-------------------|---------|-------------------|----------------|-------------------------------------------------------------|
| Sodium salicylate | 54-21-7 | EEC No. 200-198-0 | <=100          | Acute Tox 4 (H302)<br>Eye Irrit. 2 (H319)<br>Repr. 2 (H361) |

# SAFETY DATA SHEET

Full text of Hazard Statements: see section 16

## SECTION 4: FIRST AID MEASURES

### 4.1. Description of first aid measures

|                                   |                                                                                                                                                  |
|-----------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>General advice</b>             | If symptoms persist, call a physician.                                                                                                           |
| <b>Eye contact</b>                | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Get medical attention.                                  |
| <b>Skin contact</b>               | Wash off immediately with plenty of water for at least 15 minutes. If skin irritation persists, call a physician.                                |
| <b>Ingestion</b>                  | Clean mouth with water and drink afterwards plenty of water. Get medical attention if symptoms occur.                                            |
| <b>Inhalation</b>                 | Remove to fresh air. If not breathing, give artificial respiration. Get medical attention if symptoms occur.                                     |
| <b>Protection of first-aiders</b> | Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination. |

### 4.2. Most important symptoms and effects, both acute and delayed

None reasonably foreseeable.

### 4.3. Indication of any immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically.

## SECTION 5: FIREFIGHTING MEASURES

### 5.1. Extinguishing media

#### Suitable extinguishing media

Water spray, carbon dioxide (CO<sub>2</sub>), dry chemical, alcohol-resistant foam.

#### Extinguishing media which must not be used for safety reasons

No information available.

### 5.2. Special hazards arising from the substance or mixture

Thermal decomposition can lead to release of irritating gases and vapours.

#### Hazardous combustion products

Carbon monoxide, Carbon dioxide (CO<sub>2</sub>).

### 5.3. Advice for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

## SECTION 6: ACCIDENTAL RELEASE MEASURES

ALFAAA17056

# SAFETY DATA SHEET

Sodium salicylate

Revision Date 12-Feb-2025

## **6.1. Personal precautions, protective equipment and emergency procedures**

Use personal protective equipment as required. Ensure adequate ventilation. Avoid dust formation.

## **6.2. Environmental precautions**

Should not be released into the environment.

## **6.3. Methods and material for containment and cleaning up**

Sweep up and shovel into suitable containers for disposal. Keep in suitable, closed containers for disposal.

## **6.4. Reference to other sections**

Refer to protective measures listed in Sections 8 and 13.

## **SECTION 7: HANDLING AND STORAGE**

### **7.1. Precautions for safe handling**

Wear personal protective equipment/face protection. Ensure adequate ventilation. Avoid dust formation. Do not get in eyes, on skin, or on clothing. Avoid ingestion and inhalation.

#### **Hygiene measures**

Handle in accordance with good industrial hygiene and safety practice.

### **7.2. Conditions for safe storage, including any incompatibilities**

Keep containers tightly closed in a dry, cool and well-ventilated place. Protect from light.

**Technical Rules for Hazardous Substances (TRGS) 510**      Class 11  
**Storage Class (LGK) (Germany)**

### **7.3. Specific end use(s)**

Use in laboratories

## **SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION**

### **8.1. Control parameters**

#### **Exposure limits**

This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies

#### **Biological limit values**

This product, as supplied, does not contain any hazardous materials with biological limits established by the region specific

# SAFETY DATA SHEET

Sodium salicylate

Revision Date 12-Feb-2025

regulatory bodies.

## Monitoring methods

BS EN 14042:2003 Title Identifier: Workplace atmospheres. Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents.

## Derived No Effect Level (DNEL) / Derived Minimum Effect Level (DMEL)

See table for values

| Component                              | Acute effects local (Dermal) | Acute effects systemic (Dermal) | Chronic effects local (Dermal) | Chronic effects systemic (Dermal) |
|----------------------------------------|------------------------------|---------------------------------|--------------------------------|-----------------------------------|
| Sodium salicylate<br>54-21-7 ( <=100 ) |                              |                                 |                                | DNEL = 0.373mg/kg<br>bw/day       |

| Component                              | Acute effects local (Inhalation) | Acute effects systemic (Inhalation) | Chronic effects local (Inhalation) | Chronic effects systemic (Inhalation) |
|----------------------------------------|----------------------------------|-------------------------------------|------------------------------------|---------------------------------------|
| Sodium salicylate<br>54-21-7 ( <=100 ) |                                  |                                     |                                    | DNEL = 1.32mg/m <sup>3</sup>          |

## Predicted No Effect Concentration (PNEC)

See values below.

| Component                              | Fresh water     | Fresh water sediment             | Water Intermittent | Microorganisms in sewage treatment | Soil (Agriculture)          |
|----------------------------------------|-----------------|----------------------------------|--------------------|------------------------------------|-----------------------------|
| Sodium salicylate<br>54-21-7 ( <=100 ) | PNEC = 41.3µg/L | PNEC = 0.167mg/kg<br>sediment dw |                    |                                    | PNEC = 9.19µg/kg<br>soil dw |

| Component                              | Marine water    | Marine water sediment           | Marine water intermittent | Food chain | Air |
|----------------------------------------|-----------------|---------------------------------|---------------------------|------------|-----|
| Sodium salicylate<br>54-21-7 ( <=100 ) | PNEC = 4.13µg/L | PNEC = 16.7µg/kg<br>sediment dw |                           |            |     |

## 8.2. Exposure controls

### Engineering measures

Ensure adequate ventilation, especially in confined areas. Ensure that eyewash stations and safety showers are close to the workstation location.

Wherever possible, engineering control measures such as the isolation or enclosure of the process, the introduction of process or equipment changes to minimise release or contact, and the use of properly designed ventilation systems, should be adopted to control hazardous materials at source

### Personal protective equipment

#### Eye protection

Goggles (European standard - EN 166)

#### Hand protection

Protective gloves

| Glove material | Breakthrough time | Glove thickness | EU standard | Glove comments        |
|----------------|-------------------|-----------------|-------------|-----------------------|
| Nitrile rubber | See manufacturers | -               | EN 374      | (minimum requirement) |
| Neoprene       | recommendations   |                 |             |                       |
| Natural rubber |                   |                 |             |                       |
| PVC            |                   |                 |             |                       |

#### Skin and body protection

Long sleeved clothing.

# SAFETY DATA SHEET

Sodium salicylate

Revision Date 12-Feb-2025

Inspect gloves before use.

Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves.  
(Refer to manufacturer/supplier for information)

Ensure gloves are suitable for the task: Chemical compatability, Dexterity, Operational conditions, User susceptibility, e.g. sensitisation effects, also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion.

Remove gloves with care avoiding skin contamination.

## Respiratory protection

When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.  
To protect the wearer, respiratory protective equipment must be the correct fit and be used and maintained properly

## Large scale/emergency use

Use a NIOSH/MSHA or European Standard EN 136 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced  
**Recommended Filter type:** Particulates filter conforming to EN 143

## Small scale/Laboratory use

Use a NIOSH/MSHA or European Standard EN 149:2001 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced.  
**Recommended half mask:-** Particle filtering: EN149:2001  
When RPE is used a face piece Fit Test should be conducted

**Environmental exposure controls** No information available.

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

### 9.1. Information on basic physical and chemical properties

|                                         |                           |                                           |
|-----------------------------------------|---------------------------|-------------------------------------------|
| Physical state                          | solid                     |                                           |
| Appearance                              | white                     |                                           |
| Odour                                   | odourless                 |                                           |
| Odour Threshold                         | no data available         |                                           |
| Melting point/range                     | 200 °C / 392 °F           |                                           |
| Softening point                         | No data available         |                                           |
| Boiling point/range                     | No information available. |                                           |
| Flammability (liquid)                   | Not applicable            | solid                                     |
| Flammability (solid,gas)                | No information available. |                                           |
| Explosion limits                        | no data available.        |                                           |
| Flash point                             | No information available. | <b>Method -</b> No information available. |
| Autoignition temperature                | >250 °C / >482 °F         |                                           |
| Decomposition temperature               | no data available         |                                           |
| pH                                      | Not applicable            |                                           |
| Viscosity                               | Not applicable            | solid                                     |

### 9.2. Other information

**Molecular formula** C7 H5 Na O3

# SAFETY DATA SHEET

Sodium salicylate

Revision Date 12-Feb-2025

Molecular Weight 160.1  
Evaporation rate Not applicable - solid

## SECTION 10: STABILITY AND REACTIVITY

### 10.1. Reactivity

None known based on information supplied

### 10.2. Chemical stability

Light sensitive.

### 10.3. Possibility of hazardous reactions

Hazardous polymerisation Hazardous polymerisation does not occur.  
Hazardous reactions None under normal processing.

### 10.4. Conditions to avoid

Avoid dust formation. Incompatible products. Excess heat. Exposure to light.

### 10.5. Incompatible materials

Acids. Strong oxidizing agents. Strong bases. Lead.

### 10.6. Hazardous decomposition products

Carbon monoxide. Carbon dioxide (CO<sub>2</sub>).

## SECTION 11: TOXICOLOGICAL INFORMATION

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

#### Product Information

#### (a) acute toxicity;

Oral

Category 4

Dermal

Based on available data, the classification criteria are not met

Inhalation

Based on available data, the classification criteria are not met

| Component         | LD50 Oral       | LD50 Dermal               | LC50 Ionanálú |
|-------------------|-----------------|---------------------------|---------------|
| Sodium salicylate | 930 mg/kg (Rat) | LD50 > 2000 mg/kg ( Rat ) | -             |

#### (b) skin corrosion/irritation;

no data available

#### (c) serious eye damage/irritation;

Category 2

#### (d) respiratory or skin sensitization;

Respiratory

no data available

Skin

no data available

#### (e) germ cell mutagenicity;

no data available

#### (f) carcinogenicity;

no data available

Níl ceimiceáin charcanaigineacha atá ar eolas sa táirge seo

# SAFETY DATA SHEET

Sodium salicylate

Revision Date 12-Feb-2025

(g) reproductive toxicity; Category 2

(h) STOT-single exposure; no data available

(i) STOT-repeated exposure; no data available

Target Organs None known.

(j) aspiration hazard; Not applicable  
solid

Other adverse effects Irritating to eyes, respiratory system and skin.

Symptoms / effects, both acute and delayed No information available.

## 11.2. Information on other hazards

**Endocrine Disrupting Properties** Assess endocrine disrupting properties for human health. This product does not contain any known or suspected endocrine disruptors.

## SECTION 12: ECOLOGICAL INFORMATION

### 12.1. Toxicity

**Ecotoxicity effects** Do not empty into drains. .

| Component         | Éisc Fionnuisce                                                      | Míol Gorm | Algaí Fionnuisce |
|-------------------|----------------------------------------------------------------------|-----------|------------------|
| Sodium salicylate | LC50: 1270 - 1470 mg/L, 96h<br>flow-through (Pimephales<br>promelas) |           |                  |

### 12.2. Persistence and degradability

**Persistence** Persistence is unlikely.

### 12.3. Bioaccumulative potential

Bioaccumulation is unlikely

| Component         | log Pow | Bioconcentration factor (BCF) |
|-------------------|---------|-------------------------------|
| Sodium salicylate | -1.259  | no data available             |

### 12.4. Mobility in soil

The product is water soluble, and may spread in water systems Is dócha a bheith gluaisteach sa chomhshaol de thairbhe a intuaslachtacht in uisce. Highly mobile in soils

### 12.5. Results of PBT and vPvB assessment

Substance is not considered persistent, bioaccumulative and toxic (PBT) / very persistent and very bioaccumulative (vPvB).

### 12.6. Endocrine disrupting properties

**Endocrine Disruptor Information** This product does not contain any known or suspected endocrine disruptors

# SAFETY DATA SHEET

Sodium salicylate

Revision Date 12-Feb-2025

**12.7. Other adverse effects**  
**Persistent Organic Pollutant**  
**Ozone Depletion Potential**

This product does not contain any known or suspected substance  
This product does not contain any known or suspected substance

## SECTION 13: DISPOSAL CONSIDERATIONS

### **13.1. Waste treatment methods**

**Waste from Residues/Unused Products**

Waste is classified as hazardous. Dispose of in accordance with the European Directives on waste and hazardous waste. Dispose of in accordance with local regulations.

**Contaminated packaging**

Dispose of this container to hazardous or special waste collection point.

**European Waste Catalogue (EWC)**

According to the European Waste Catalog, Waste Codes are not product specific, but application specific.

**Other information**

Waste codes should be assigned by the user based on the application for which the product was used. Do not empty into drains.

## SECTION 14: TRANSPORT INFORMATION

**IMDG/IMO**

not regulated

**14.1. UN number**

**14.2. UN proper shipping name**

**14.3. Transport hazard class(es)**

**14.4. Packing group**

**ADR**

not regulated

**14.1. UN number**

**14.2. UN proper shipping name**

**14.3. Transport hazard class(es)**

**14.4. Packing group**

**IATA**

not regulated

**14.1. UN number**

**14.2. UN proper shipping name**

**14.3. Transport hazard class(es)**

**14.4. Packing group**

**14.5. Environmental hazards**

No hazards identified

**14.6. Special precautions for user**

No special precautions required.

**14.7. Maritime transport in bulk according to IMO instruments**

Not applicable, packaged goods

## SECTION 15: REGULATORY INFORMATION

**15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture**

## 15.2. Chemical safety assessment

A Chemical Safety Assessment/Report (CSA/CSR) has not been conducted

## SECTION 16: OTHER INFORMATION

### Full text of H-Statements referred to under sections 2 and 3

H302 - Harmful if swallowed

H319 - Causes serious eye irritation

H361 - Suspected of damaging fertility or the unborn child

### Legend

**CAS** - Chemical Abstracts Service

**EINECS/ELINCS** - European Inventory of Existing Commercial Chemical Substances/EU List of Notified Chemical Substances

**PICCS** - Philippines Inventory of Chemicals and Chemical Substances

**IECSC** - China Inventory of Existing Chemical Substances

**KECL** - Korean Existing and Evaluated Chemical Substances

**TSCA** - United States Toxic Substances Control Act Section 8(b) Inventory

**DSL/NDL** - Canadian Domestic Substances List/Non-Domestic Substances List

**ENCS** - Japan Existing and New Chemical Substances

**AICS** - Australian Inventory of Chemical Substances

**NZIoC** - New Zealand Inventory of Chemicals

**WEL** - Workplace Exposure Limit

**ACGIH** - American Conference of Governmental Industrial Hygienists

**DNEL** - Derived No Effect Level

**RPE** - Respiratory Protective Equipment

**LC50** - Lethal Concentration 50%

**NOEC** - No Observed Effect Concentration

**PBT** - Persistent, Bioaccumulative, Toxic

**TWA** - Time Weighted Average

**IARC** - International Agency for Research on Cancer Predicted No Effect Concentration (PNEC)

**LD50** - Lethal Dose 50%

**EC50** - Effective Concentration 50%

**POW** - Partition coefficient Octanol:Water

**vPvB** - very Persistent, very Bioaccumulative

**ADR** - European Agreement Concerning the International Carriage of Dangerous Goods by Road

**IMO/IMDG** - International Maritime Organization/International Maritime Dangerous Goods Code

**OECD** - Organisation for Economic Co-operation and Development

**BCF** - Bioconcentration factor (BCF)

### Key literature references and sources for data

<https://echa.europa.eu/information-on-chemicals>

Suppliers safety data sheet, Chemadvisor - LOLI, Merck index, RTECS

**ICAO/IATA** - International Civil Aviation Organization/International Air Transport Association

**MARPOL** - International Convention for the Prevention of Pollution from Ships

**ATE** - Acute Toxicity Estimate

**VOC** - (Volatile Organic Compound)

### Training advice

Chemical hazard awareness training, incorporating labelling, Safety Data Sheets (SDS), Personal Protective Equipment (PPE) and hygiene.

Use of personal protective equipment, covering appropriate selection, compatibility, breakthrough thresholds, care, maintenance, fit and standards.

First aid for chemical exposure, including the use of eye wash and safety showers.
