

**SECTION 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING**

**1.1. Product identifier**

**Product Description:** Autoimmunity Specific IgG Sample Diluent  
**Cat No. :** 10-9499-41

**1.2. Relevant identified uses of the substance or mixture and uses advised against**

**Recommended Use** In vitro diagnostic  
**Uses advised against** All other uses

**1.3. Details of the supplier of the safety data sheet**

**Company** Phadia AB  
Rapsgatan 7P  
P.O. Box 6460  
751 37 UPPSALA  
Sweden  
+46 18 16 50 00  
**E-mail address** safetydatasheet.idd@thermofisher.com

**1.4. Emergency telephone number**

CHEMTREC Ireland (Dublin) +(353)-19014670  
CHEMTREC Belgium (Brussels) +(32)-28083237  
Malta 112 Emergency phone number

**SECTION 2: HAZARDS IDENTIFICATION**

**2.1. Classification of the substance or mixture**

**CLP Classification - According to GB-CLP Regulations UK SI 2019/720 and UK SI 2020/1567**

**Physical hazards**

Based on available data, the classification criteria are not met

**Health hazards**

Skin Sensitization Category 1

**Environmental hazards**

Chronic aquatic toxicity Category 3

For the full text of the H-statements mentioned in this Section, see Section 16.

# SAFETY DATA SHEET

Autoimmunity Specific IgG Sample Diluent

Revision Date 10-Nov-2023

## 2.2. Label elements

### Signal Word

### Warning

H317 - May cause an allergic skin reaction  
H412 - Harmful to aquatic life with long lasting effects

P273 - Avoid release to the environment  
P280 - Wear protective gloves/protective clothing  
P501 - Dispose of contents/container in accordance with local, regional, national and international regulations.

## 2.3. Other hazards

This product does not contain any known or suspected endocrine disruptors.  
This preparation contains no substance considered to be persistent, bioaccumulating nor toxic (PBT). This preparation contains no substance considered to be very persistent nor very bioaccumulating (vPvB).

## SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

### 3.1. Substances

### 3.2. Mixtures

| Component                                                                                                                                               | CAS No     | EC No | Weight % | CLP Classification - According to GB-CLP Regulations UK SI 2019/720 and UK SI 2020/1567                                                                                                                |

# SAFETY DATA SHEET

Autoimmunity Specific IgG Sample Diluent

Revision Date 10-Nov-2023

For the full text of the H-statements mentioned in this Section, see Section 16.

## SECTION 4: FIRST AID MEASURES

### 4.1. Description of first aid measures

|                                           |                                                                                                                       |
|-------------------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| <b>Eye Contact</b>                        | Rinse thoroughly with plenty of water, also under the eyelids.                                                        |
| <b>Skin Contact</b>                       | IF ON SKIN: Wash with plenty of soap and water. In the case of skin irritation or allergic reactions see a physician. |
| <b>Ingestion</b>                          | Clean mouth with water and drink afterwards plenty of water.                                                          |
| <b>Inhalation</b>                         | Not applicable.                                                                                                       |
| <b>Self-Protection of the First Aider</b> | Not Applicable.                                                                                                       |

### 4.2. Most important symptoms and effects, both acute and delayed

May cause skin irritation and/or dermatitis.

### 4.3. Indication of any immediate medical attention and special treatment needed

|                           |                        |
|---------------------------|------------------------|
| <b>Notes to Physician</b> | Treat symptomatically. |
|---------------------------|------------------------|

## SECTION 5: FIREFIGHTING MEASURES

### 5.1. Extinguishing media

#### **Suitable Extinguishing Media**

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

#### **Extinguishing media which must not be used for safety reasons**

None known.

### 5.2. Special hazards arising from the substance or mixture

None known.

#### **Hazardous Combustion Products**

None known.

### 5.3. Advice for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

## SECTION 6: ACCIDENTAL RELEASE MEASURES

### 6.1. Personal precautions, protective equipment and emergency procedures

Wear protective gloves/clothing and eye/face protection. Wash contaminated clothing before reuse.

### 6.2. Environmental precautions

Dispose of in accordance with local regulations. Avoid release to the environment.

# SAFETY DATA SHEET

Autoimmunity Specific IgG Sample Diluent

Revision Date 10-Nov-2023

## 6.3. Methods and material for containment and cleaning up

Wipe up with adsorbent material (e.g. cloth, fleece). Dispose of waste product or used containers according to local regulations.

## 6.4. Reference to other sections

Refer to protective measures listed in Sections 8 and 13.

## SECTION 7: HANDLING AND STORAGE

### 7.1. Precautions for safe handling

Wash thoroughly after handling. Do not eat, drink or smoke when using this product.

### 7.2. Conditions for safe storage, including any incompatibilities

Keep at temperatures between 2 and 8°C.

### 7.3. Specific end use(s)

Observe instructions for use.

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

### 8.1. Control parameters

#### Exposure limits

List source(s):

| Component                                                                                                                                                     | Austria                                      | Denmark | Switzerland                                                                    | Poland | Norway |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------|---------|--------------------------------------------------------------------------------|--------|--------|
| Reaction mass of:<br>5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and<br>2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1); (CMIT/MIT (3:1)) | MAK-TMW: 0.05 mg/m <sup>3</sup><br>8 Stunden |         | STEL: 0.4 mg/m <sup>3</sup> 15 Minuten<br>TWA: 0.2 mg/m <sup>3</sup> 8 Stunden |        |        |

#### Biological limit values

This product, as supplied, does not contain any hazardous materials with biological limits established by the region specific regulatory bodies

#### Monitoring methods

BS EN 14042:2003 Title Identifier: Workplace atmospheres. Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents.

Autoimmunity Specific IgG Sample Diluent

Revision Date 10-Nov-2023

## Derived Minimum Effect Level (DMEL) / Derived No Effect Level (DNEL)

See table for values

| Component                                                                                                                                                                   | Acute effects local (Inhalation) | Acute effects systemic (Inhalation) | Chronic effects local (Inhalation) | Chronic effects systemic (Inhalation) |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------|-------------------------------------|------------------------------------|---------------------------------------|
| Reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1); (CMIT/MIT (3:1)) 55965-84-9 (<0.003) | DNEL = 0.04mg/m <sup>3</sup>     |                                     | DNEL = 0.02mg/m <sup>3</sup>       |                                       |

## Predicted No Effect Concentration (PNEC)

See values below.

| Component                                                                                                                                                                   | Fresh water     | Fresh water sediment          | Water Intermittent | Microorganisms in sewage treatment | Soil (Agriculture)       |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|-------------------------------|--------------------|------------------------------------|--------------------------|
| Reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1); (CMIT/MIT (3:1)) 55965-84-9 (<0.003) | PNEC = 3.39µg/L | PNEC = 0.027mg/kg sediment dw | PNEC = 3.39µg/L    | PNEC = 0.23mg/L                    | PNEC = 0.01mg/kg soil dw |

| Component                                                                                                                                                                   | Marine water    | Marine water sediment         | Marine water intermittent | Food chain | Air |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|-------------------------------|---------------------------|------------|-----|
| Reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1); (CMIT/MIT (3:1)) 55965-84-9 (<0.003) | PNEC = 3.39µg/L | PNEC = 0.027mg/kg sediment dw | PNEC = 3.39µg/L           |            |     |

## 8.2. Exposure controls

### Engineering Measures

None under normal use conditions.

### Personal protective equipment

#### Eye Protection

No special protective equipment required.

#### Hand Protection

Protective gloves.

| Glove material | Breakthrough time                 | Glove thickness | EU standard | Glove comments        |
|----------------|-----------------------------------|-----------------|-------------|-----------------------|
| Nitrile rubber | See manufacturers recommendations | -               | EN 374      | (minimum requirement) |

#### Skin and body protection

Long sleeved clothing.

#### Respiratory Protection

No protective equipment is needed under normal use conditions.

# SAFETY DATA SHEET

Autoimmunity Specific IgG Sample Diluent

Revision Date 10-Nov-2023

|                                 |                                                                        |
|---------------------------------|------------------------------------------------------------------------|
| Large scale/emergency use       | No protective equipment is needed under normal use conditions          |
| Small scale/Laboratory use      | No personal respiratory protective equipment normally required.        |
| Hygiene Measures                | Handle in accordance with good industrial hygiene and safety practice. |
| Environmental exposure controls | Dispose of contents/containers in accordance with local regulations.   |

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

### 9.1. Information on basic physical and chemical properties

|                                                                                                                                                         |                          |                                   |

### 9.2. Other information

|                      |                |
|----------------------|----------------|
| Explosive Properties | Not applicable |
| Oxidizing Properties | Not applicable |

## SECTION 10: STABILITY AND REACTIVITY

|                          |                                 |
|--------------------------|---------------------------------|
| 10.1. Reactivity         | None known.                     |
| 10.2. Chemical stability | Stable under normal conditions. |

# SAFETY DATA SHEET

Autoimmunity Specific IgG Sample Diluent

Revision Date 10-Nov-2023

## 10.3. Possibility of hazardous reactions

**Hazardous Polymerization** Hazardous polymerization does not occur.  
**Hazardous Reactions** None under normal processing.

## 10.4. Conditions to avoid

None known.

## 10.5. Incompatible materials

None known.

## 10.6. Hazardous decomposition products

None known.

## SECTION 11: TOXICOLOGICAL INFORMATION

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

**Product Information** Product does not present an acute toxicity hazard based on known or supplied information.

#### (a) acute toxicity;

**Oral** No data available.  
**Dermal** No data available.  
**Inhalation** No data available.

| Component                                                                                                                                               | LD50 Oral               | LD50 Dermal                   | LC50 Inhalation      |
|---------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|-------------------------------|----------------------|
| Reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1); (CMIT/MIT (3:1)) | LD50 = 53 mg/kg ( Rat ) | LD50 = 87.12 mg/kg ( Rabbit ) | 4h 0.33 mg/l ( Rat ) |

**(b) skin corrosion/irritation;** No data available.

**(c) serious eye damage/irritation;** No data available.

#### (d) respiratory or skin sensitization;

**Respiratory** No data available.  
**Skin** Sensitizing.

#### (e) germ cell mutagenicity;

| Component                                                                                                                                               | Test method         | Test species | Study result |
|---------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|--------------|--------------|
| Reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1); (CMIT/MIT (3:1)) | in vivo<br>in vitro |              | negative     |

**(f) carcinogenicity;** There are no known carcinogenic chemicals in this product.

| Component                                                                                                                                               | Test method | Test species / Duration | Study result |
|---------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|-------------------------|--------------|
| Reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1); (CMIT/MIT (3:1)) |             |                         | negative     |

#### (g) reproductive toxicity;

| Component                     | Test method | Test species / Duration | Study result |
|-------------------------------|-------------|-------------------------|--------------|
| Reaction mass of: 5-chloro-2- |             |                         | negative     |

### 12.2. Persistence and degradability

| Component                                                                                                                                               | Degradability                                                       |
|---------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------|
| Reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1); (CMIT/MIT (3:1)) | Biodegradable <50 % 10 days<br>Atmospheric half-life: 0.38-1.3 Days |

### 12.3. Bioaccumulative potential

| Component                                                                                                                                               | log Pow | Bioconcentration factor (BCF) |
|---------------------------------------------------------------------------------------------------------------------------------------------------------|---------|-------------------------------|
| Reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1); (CMIT/MIT (3:1)) | <0.401  | <54                           |

12.4. Mobility in soil No information available.

# SAFETY DATA SHEET

Autoimmunity Specific IgG Sample Diluent

Revision Date 10-Nov-2023

## 12.5. Results of PBT and vPvB assessment

This preparation contains no substance considered to be persistent, bioaccumulating nor toxic (PBT). This preparation contains no substance considered to be very persistent nor very bioaccumulating (vPvB).

## 12.6. Endocrine disrupting properties

### Endocrine Disruptor Information

This product does not contain any known or suspected endocrine disruptors

## 12.7. Other adverse effects

### Persistent Organic Pollutant Ozone Depletion Potential

No known effect.  
No known effect.

## SECTION 13: DISPOSAL CONSIDERATIONS

### 13.1. Waste treatment methods

#### Waste from Residues/Unused Products

Avoid release to the environment.

#### Contaminated Packaging

Cleaned and empty containers should be taken to local recyclers for disposal.

#### European Waste Catalogue (EWC) Other Information

18 01 06\* chemicals consisting of or containing dangerous substances.  
No information available.

## SECTION 14: TRANSPORT INFORMATION

### IMDG/IMO

Not regulated

#### 14.1. UN number

#### 14.2. UN proper shipping name

#### 14.3. Transport hazard class(es)

#### 14.4. Packing group

### ADR

Not regulated

#### 14.1. UN number

#### 14.2. UN proper shipping name

#### 14.3. Transport hazard class(es)

#### 14.4. Packing group

### IATA

Not regulated

#### 14.1. UN number

#### 14.2. UN proper shipping name

#### 14.3. Transport hazard class(es)

#### 14.4. Packing group

### 14.5. Environmental hazards

No hazards identified.

### 14.6. Special precautions for user

No special precautions required.

### 14.7. Maritime transport in bulk according to IMO instruments

Not applicable, packaged goods.

## SECTION 15: REGULATORY INFORMATION

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

| Reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1); (CMIT/MIT (3:1)) |                                                                     | Use restricted. See item 75. (see link for restriction details)               |                                                                                                       |

| Component                                                                                                                                               | Seveso III Directive (2012/18/EC) - Qualifying Quantities for Major Accident Notification | Seveso III Directive (2012/18/EC) - Qualifying Quantities for Safety Report Requirements |
|---------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------|
| Reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1); (CMIT/MIT (3:1)) | H1: 5-100 ton, E1: 20-200 ton                                                             | H1: 5-100 ton, E1: 20-200 ton                                                            |

**Regulation (EC) No 649/2012 of the European Parliament and of the Council of 4 July 2012 concerning the export and import of dangerous chemicals**

Not applicable

## National Regulations

| Component                                                                                                                                               | Germany - Water Classification (AwSV) | Germany - TA-Luft Class |
|---------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------|-------------------------|
| Reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1); (CMIT/MIT (3:1)) | WGK3                                  |                         |

**UK** - Take note of Control of Substances Hazardous to Health Regulations (COSHH) 2002 and 2005 Amendment.

## 15.2. Chemical safety assessment

A Chemical Safety Assessment/Report (CSA/CSR) is not required.

## SECTION 16: OTHER INFORMATION

### Full text of H-Statements referred to under sections 2 and 3

H301 - Toxic if swallowed  
H310 - Fatal in contact with skin  
H314 - Causes severe skin burns and eye damage  
H317 - May cause an allergic skin reaction  
H318 - Causes serious eye damage  
H330 - Fatal if inhaled  
H400 - Very toxic to aquatic life  
H410 - Very toxic to aquatic life with long lasting effects  
H412 - Harmful to aquatic life with long lasting effects  
EUH071 - Corrosive to the respiratory tract

# SAFETY DATA SHEET

Autoimmunity Specific IgG Sample Diluent

Revision Date 10-Nov-2023

## Legend

**CAS** - Chemical Abstracts Service

**EINECS/ELINCS** - European Inventory of Existing Commercial Chemical Substances/EU List of Notified Chemical Substances

**PICCS** - Philippines Inventory of Chemicals and Chemical Substances

**IECSC** - Chinese Inventory of Existing Chemical Substances

**KECL** - Korean Existing and Evaluated Chemical Substances

**TSCA** - United States Toxic Substances Control Act Section 8(b) Inventory

**DSL/NDSL** - Canadian Domestic Substances List/Non-Domestic Substances List

**ENCS** - Japanese Existing and New Chemical Substances

**AICS** - Australian Inventory of Chemical Substances

**NZIoC** - New Zealand Inventory of Chemicals

**WEL** - Workplace Exposure Limit

**ACGIH** - American Conference of Governmental Industrial Hygienists

**DNEL** - Derived No Effect Level

**RPE** - Respiratory Protective Equipment

**LC50** - Lethal Concentration 50%

**NOEC** - No Observed Effect Concentration

**PBT** - Persistent, Bioaccumulative, Toxic

**TWA** - Time Weighted Average

**IARC** - International Agency for Research on Cancer  
Predicted No Effect Concentration (PNEC)

**LD50** - Lethal Dose 50%

**EC50** - Effective Concentration 50%

**POW** - Partition coefficient Octanol:Water

**vPvB** - very Persistent, very Bioaccumulative

**ADR** - European Agreement Concerning the International Carriage of Dangerous Goods by Road

**IMO/IMDG** - International Maritime Organization/International Maritime Dangerous Goods Code

**OECD** - Organisation for Economic Co-operation and Development

**BCF** - Bioconcentration factor

### **Key literature references and sources for data**

<https://echa.europa.eu/information-on-chemicals>

Suppliers safety data sheet, Chemadvisor - LOLI, Merck index, RTECS

**ICAO/IATA** - International Civil Aviation Organization/International Air Transport Association

**MARPOL** - International Convention for the Prevention of Pollution from Ships

**ATE** - Acute Toxicity Estimate

**VOC** (volatile organic compound)

### **Physical hazards**

On basis of test data

### **Health Hazards**

Calculation method

### **Environmental hazards**

Calculation method

### **Training Advice**

Chemical hazard awareness training, incorporating labelling, Safety Data Sheets (SDS), Personal Protective Equipment (PPE) and hygiene.

### **Revision Date**

10-Nov-2023

### **Revision Summary**

SDS sections updated, 3.

**This safety data sheet complies with Regulation UK SI 2019/758 and UK SI 2020/1577 as amended**

### **Disclaimer**

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text
