

## SAFETY DATA SHEET

Revision Date 30-March-2024

Revision Number 3

### 1. Identification

**Product Name** Sodium telluride

**Cat No. :** 41777

**CAS-No** 12034-41-2  
**Synonyms** No information available

**Recommended Use** Laboratory chemicals.  
**Uses advised against** Food, drug, pesticide or biocidal product use.

#### Details of the supplier of the safety data sheet

##### Company

##### **Importer/Distributor**

Fisher Scientific  
112 Colonnade Road,  
Ottawa, ON K2E 7L6,  
Canada  
Tel: 1-800-234-7437

##### **Emergency Telephone Number**

For information **US** call: 001-800-227-6701 / **Europe** call: +32 14 57 52 11

Emergency Number **US**:001-201-796-7100 / **Europe**: +32 14 57 52 99

**CHEMTREC** Tel. No. **US**:001-800-424-9300 / **Europe**:001-703-527-3887

### 2. Hazard(s) identification

#### Classification

##### **WHMIS 2015 Classification**

Classified as hazardous under the Hazardous Products Regulations (SOR/2015-17)

|                                                                        |            |                                                  |
|------------------------------------------------------------------------|------------|--------------------------------------------------|
| Substances/mixtures which, in contact with water, emit flammable gases | Category 2 | Gas(es) = Hydrogen telluride (H <sub>2</sub> Te) |
| Acute oral toxicity                                                    | Category 4 |                                                  |
| Acute dermal toxicity                                                  | Category 4 |                                                  |
| Acute Inhalation Toxicity                                              | Category 4 |                                                  |
| Skin Corrosion/Irritation                                              | Category 2 |                                                  |
| Serious Eye Damage/Eye Irritation                                      | Category 2 |                                                  |

#### Label Elements

##### **Signal Word**

Danger

##### **Hazard Statements**

In contact with water releases flammable gas  
Harmful if swallowed, in contact with skin or if inhaled  
Causes skin irritation  
Causes serious eye irritation  
Harmful if inhaled

**Precautionary Statements****Prevention**

Do not allow contact with water  
Avoid breathing dust/fume/gas/mist/vapors/spray  
Wash face, hands and any exposed skin thoroughly after handling  
Do not eat, drink or smoke when using this product  
Use only outdoors or in a well-ventilated area  
Wear protective gloves/protective clothing/eye protection/face protection  
Handle and store contents under inert gas. Protect from moisture

**Response**

IF ON SKIN: Wash with plenty of soap and water  
IF INHALED: Remove person to fresh air and keep comfortable for breathing  
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing  
Call a POISON CENTER/ doctor if you feel unwell  
Rinse mouth  
In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish  
Take off contaminated clothing and wash it before reuse  
IF ON SKIN: Brush off loose particles from skin. Immerse in cool water

**Storage**

Store in a dry place. Store in a closed container

**Disposal**

Dispose of contents/container to an approved waste disposal plant

### 3. Composition/Information on Ingredients

| Component                             | CAS-No     | Weight % |
|---------------------------------------|------------|----------|
| Sodium telluride (Na <sub>2</sub> Te) | 12034-41-2 | <=100    |

### 4. First-aid measures

|                                        |                                                                                                                         |
|----------------------------------------|-------------------------------------------------------------------------------------------------------------------------|
| <b>Eye Contact</b>                     | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Get medical attention.         |
| <b>Skin Contact</b>                    | Wash off immediately with plenty of water for at least 15 minutes. Get medical attention immediately if symptoms occur. |
| <b>Inhalation</b>                      | Remove to fresh air. Get medical attention immediately if symptoms occur.                                               |
| <b>Ingestion</b>                       | Clean mouth with water and drink afterwards plenty of water. Get medical attention if symptoms occur.                   |
| <b>Most important symptoms/effects</b> | None reasonably foreseeable.                                                                                            |
| <b>Notes to Physician</b>              | Treat symptomatically                                                                                                   |

## 5. Fire-fighting measures

**Suitable Extinguishing Media** Use: Dry sand. Carbon dioxide (CO<sub>2</sub>). Do not use water or foam.

**Unsuitable Extinguishing Media** No information available

**Flash Point** No information available  
**Method -** No information available

**Autoignition Temperature** No information available

**Explosion Limits**

**Upper** No data available

**Lower** No data available

**Sensitivity to Mechanical Impact** No information available

**Sensitivity to Static Discharge** No information available

**Specific Hazards Arising from the Chemical**

Keep product and empty container away from heat and sources of ignition.

**Hazardous Combustion Products**

Tellurium dioxide (TeO<sub>2</sub>). Sodium oxides. Hydrogen telluride (H<sub>2</sub>Te).

**Protective Equipment and Precautions for Firefighters**

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

**NFPA**

**Health**  
2

**Flammability**  
2

**Instability**  
0

**Physical hazards**  
W

## 6. Accidental release measures

**Personal Precautions** Ensure adequate ventilation. Use personal protective equipment as required. Avoid dust formation. Remove all sources of ignition.

**Environmental Precautions** Should not be released into the environment. Do not flush into surface water or sanitary sewer system.

**Methods for Containment and Clean Up** Sweep up and shovel into suitable containers for disposal. Avoid dust formation. Do not flush with water or aqueous cleansing agents. Remove all sources of ignition.

## 7. Handling and storage

**Handling** Wear personal protective equipment/face protection. Ensure adequate ventilation. Avoid contact with skin, eyes or clothing. Avoid ingestion and inhalation. Avoid dust formation. Handle under inert gas, protect from moisture. Take precautionary measures against static discharges.

**Storage.** Keep away from water or moist air. Keep away from acids. Keep away from oxidizing agents. Store under an inert atmosphere. Protect from moisture. Keep container tightly closed in a dry and well-ventilated place. Incompatible Materials. Acids. Water. Oxidizing agent.

## 8. Exposure controls / personal protection

**Exposure Guidelines**

| Component                             | Alberta                    | British Columbia           | Ontario TWA/EV             | Quebec                     | ACGIH TLV                  | OSHA PEL                             | NIOSH                                                    |
|---------------------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|--------------------------------------|----------------------------------------------------------|
| Sodium telluride (Na <sub>2</sub> Te) | TWA: 0.1 mg/m <sup>3</sup> | TWA: 0.1 mg/m <sup>3</sup> | TWA: 0.1 mg/m <sup>3</sup> | TWA: 0.1 mg/m <sup>3</sup> | TWA: 0.1 mg/m <sup>3</sup> | (Vacated) TWA: 0.1 mg/m <sup>3</sup> | IDLH: 25 mg/m <sup>3</sup><br>TWA: 0.1 mg/m <sup>3</sup> |

**Legend**

ACGIH - American Conference of Governmental Industrial Hygienists

OSHA - Occupational Safety and Health Administration

NIOSH: NIOSH - National Institute for Occupational Safety and Health

**Engineering Measures**

None under normal use conditions. Ensure that eyewash stations and safety showers are close to the workstation location.

**Personal protective equipment****Eye Protection**

Goggles

**Hand Protection**

Wear appropriate protective gloves and clothing to prevent skin exposure.

| Glove material | Breakthrough time | Glove thickness | Glove comments         |
|----------------|-------------------|-----------------|------------------------|
| Natural rubber | See manufacturers | -               | Splash protection only |
| Nitrile rubber | recommendations   |                 |                        |
| Neoprene       |                   |                 |                        |
| PVC            |                   |                 |                        |

Inspect gloves before use. observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. (Refer to manufacturer/supplier for information) gloves are suitable for the task: Chemical compatability, Dexterity, Operational conditions, User susceptibility, e.g. sensitisation effects, also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion. gloves with care avoiding skin contamination.

**Respiratory Protection**

No protective equipment is needed under normal use conditions.

**Recommended Filter type:** Particle filter

**Environmental exposure controls**

No information available.

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice. Keep away from food, drink and animal feeding stuffs. Do not eat, drink or smoke when using this product. Remove and wash contaminated clothing and gloves, including the inside, before re-use. Wash hands before breaks and after work.

## 9. Physical and chemical properties

|                                               |                          |
|-----------------------------------------------|--------------------------|
| <b>Physical State</b>                         | Powder                   |
| <b>Appearance</b>                             | No information available |
| <b>Odor</b>                                   | No information available |
| <b>Odor Threshold</b>                         | No information available |
| <b>pH</b>                                     | No information available |
| <b>Melting Point/Range</b>                    | No data available        |
| <b>Boiling Point/Range</b>                    | No information available |
| <b>Flash Point</b>                            | No information available |
| <b>Evaporation Rate</b>                       | No information available |
| <b>Flammability (solid,gas)</b>               | No information available |
| <b>Flammability or explosive limits</b>       |                          |
| <b>Upper</b>                                  | No data available        |
| <b>Lower</b>                                  | No data available        |
| <b>Vapor Pressure</b>                         | No information available |
| <b>Vapor Density</b>                          | No information available |
| <b>Specific Gravity</b>                       | No information available |
| <b>Solubility</b>                             | No information available |
| <b>Partition coefficient; n-octanol/water</b> | No data available        |

|                           |                          |
|---------------------------|--------------------------|
| Autoignition Temperature  | No information available |
| Decomposition Temperature | No information available |
| Viscosity                 | No information available |
| Molecular Formula         | Na <sub>2</sub> Te       |
| Molecular Weight          | 173.58                   |

## 10. Stability and reactivity

|                                  |                                                                                                                            |
|----------------------------------|----------------------------------------------------------------------------------------------------------------------------|
| Reactive Hazard                  | In contact with water releases flammable gases which may ignite spontaneously                                              |
| Stability                        | Stable under normal conditions.                                                                                            |
| Conditions to Avoid              | Incompatible products.                                                                                                     |
| Incompatible Materials           | Acids, Water, Oxidizing agent                                                                                              |
| Hazardous Decomposition Products | Tellurium dioxide (TeO <sub>2</sub> ), Sodium oxides, Hydrogen telluride (H <sub>2</sub> Te)                               |
| Hazardous Polymerization         | Hazardous polymerization does not occur.                                                                                   |
| Hazardous Reactions              | None under normal processing. Reacts with strong oxidising agents. Contact with water liberates extremely flammable gases. |

## 11. Toxicological information

### Acute Toxicity

#### Product Information

#### Component Information

|                                      |                          |
|--------------------------------------|--------------------------|
| Toxicologically Synergistic Products | No information available |
|--------------------------------------|--------------------------|

#### Delayed and immediate effects as well as chronic effects from short and long-term exposure

|                 |                                                                                          |
|-----------------|------------------------------------------------------------------------------------------|
| Irritation      | No information available                                                                 |
| Sensitization   | No information available                                                                 |
| Carcinogenicity | The table below indicates whether each agency has listed any ingredient as a carcinogen. |

| Component                             | CAS-No     | IARC       | NTP        | ACGIH      | OSHA       | Mexico     |

| Reproductive Effects                       | No information available.                                      |
| Developmental Effects                      | No information available.                                      |
| Teratogenicity                             | No information available.                                      |
| STOT - single exposure                     | None known                                                     |
| STOT - repeated exposure                   | None known                                                     |
| Aspiration hazard                          | No information available                                       |
| Symptoms / effects, both acute and delayed | No information available                                       |
| Endocrine Disruptor Information            | No information available                                       |
| Other Adverse Effects                      | The toxicological properties have not been fully investigated. |

## 12. Ecological information

### Ecotoxicity

Do not empty into drains.

**Persistence and Degradability** No information available

**Bioaccumulation/ Accumulation** No information available.

**Mobility** No information available.

## 13. Disposal considerations

**Waste Disposal Methods** Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations to ensure complete and accurate classification.

## 14. Transport information

### DOT

**UN-No** UN3134  
**Proper Shipping Name** Water-reactive solid, toxic, n.o.s.  
**Hazard Class** 4.3  
**Subsidiary Hazard Class** 6.1  
**Packing Group** II

### TDG

**UN-No** UN3134  
**Proper Shipping Name** Water-reactive solid, toxic, n.o.s.  
**Hazard Class** 4.3  
**Subsidiary Hazard Class** 6.1  
**Packing Group** II

### IATA

**UN-No** UN3134  
**Proper Shipping Name** Water-reactive solid, toxic, n.o.s.  
**Hazard Class** 4.3  
**Subsidiary Hazard Class** 6.1  
**Packing Group** II

### IMDG/IMO

**UN-No** UN3134  
**Proper Shipping Name** Water-reactive solid, toxic, n.o.s.  
**Hazard Class** 4.3  
**Subsidiary Hazard Class** 6.1  
**Packing Group** II
